Course Title: History of The Muslims (750-1258, The Abbasids and the Regional Dynasties)			

Course Objectives:

a. In this course we have attempted to give concisely the story of one of the most important periods in the annals of the world.
b. In its extent and it's political and cultural influence the expansion of the Arab race can be compared to that of the Roman.
c. But whilst the Roman took centuries to attain dominance the Arab won its place in a much shorter length of time.
d. The followers of Islam threw light on knowledge and gave an impetus to civilization, which, without exaggeration has few parallels in the history of the mankind.
e. The object of this course is to make the students acquaint with the knowledge of the emergence of a number of minor and petty dynasties in the East and West during the declining period of the Abbasid Caliphate. In addition, the role of the dynastic rulers in bringing socio-economic changes, their relation with the Caliphate and the Christian World would be given adequate attention. Hence the emphasis on the growth of political power and its changes have been an important phenomenon of this course.

Course Learning Outcomes (CLOs):

Upon successful completion of this course, the students will be able to-

CLO 1	to explore the Abbasid dynastic history including the histories of the regional dynasties those originated over the years under the Abbasids.
CLO 2	to study the Crusades and their causes and effects.
CLO 3	developing their critical thinking, research and writing skills that will enable them to make a difference in the world in whatever career they choose.
CLO 4	learn how to develop historical questions regarding gradual historical

	development of the regions over the years.

Course Code: 212209	Marks: 100	Credits: 4	Class Hours: 60
Course Title: Principles of Economics			

Course Objectives:

a. This course provides students with fundamental economic principles covering microeconomic and macroeconomic concepts, including supply and demand analysis, consumer behavior, production theory, market structures (perfect competition and monopoly), national income accounting, international trade, money and inflation, and government finance.

b. Students will develop analytical skills to understand economic decision-making at individual, firm, and national levels, while examining contemporary economic issues and Bangladesh's economic context.

Course Learning Outcomes (CLOs):

Upon successful completion of this course, the students should be able to

CLO1	Explain core economic concepts, including scarcity, opportunity cost, and production possibilities.
CLO2	Analyze market forces using supply-demand models and elasticity concepts.
CLO3	Apply utility theory to explain consumer choice and calculate consumer surplus.
CLO4	Differentiate between short-run and long-run production costs and analyze production functions.
CLO5	Compare market structures (perfect competition vs monopoly) and their equilibrium outcomes.
CLO6	Calculate key macroeconomic indicators (GDP, GNP) and explain national income accounting.
CLO7	Evaluate arguments for free trade vs protectionism using comparative advantage theory.
CLO8	Distinguish between economic growth and development, identifying measurement challenges.
CLO9	Explain monetary concepts (money supply measures, inflation) and their economic

	impacts.
CLO10	Analyze government budgets, tax systems, and fiscal policy implications.

Course Title:	**History of Bangladesh: Language, Culture, and Identity**		**Hours: 60**

Course Objectives: This course is designed to help undergraduate students from diverse academic backgrounds develop a comprehensive and nuanced understanding of the historical development of Bangladesh, with a particular focus on its language, culture, and identity. By critically examining a variety of historical events, socio-political movements, and cultural shifts from ancient times to the contemporary period, students will have the opportunity to trace the evolution of the Bengali nation. The course aims to foster informed citizenship through an exploration of the Liberation War, identity formation processes, cultural heritage, the lives and contributions of key political figures, and the roles of ethnic minorities. Ultimately, the objective is to equip learners with the intellectual tools necessary to contextualize current national debates and to recognize the role of youth and globalization in shaping the future of Bangladesh.

Course Learning Outcomes (CLOs): At the end of the course, learners will be able to

CLO 1: Recall key historical events, dates, movements, personalities, and cultural developments that contributed to the emergence of Bangladesh from the pre-colonial period to the present day.

CLO 2: Demonstrate an understanding of the socio-political, linguistic, and cultural influences that shaped Bengali identity and nationalism, emphasizing the Language Movement, Liberation War, and subsequent democratic uprisings.

CLO 3: Apply their historical and cultural understanding to interpret contemporary national issues and debates relating to identity, political reform, and cultural transformation in Bangladesh.

CLO 4: Analyze how historical events, political ideologies, and social changes are interconnected in shaping the current socio-political landscape of Bangladesh, with a particular emphasis on the roles of movements, minorities, and the youth.

Course Title:	**Information and Communication Technology**		

Course Objectives:

The main objective of the course is to develop students' understanding and skills in using, managing, and applying technology to solve problems and enhance various aspects of life and work. Key areas of focus include understanding ICT systems, software, hardware, networks, and their applications.

Course Learning Outcomes: The student will be able to:

CLO 1	Explain foundational ICT concepts, including the information processing cycle.
CLO 2	Operate standard computer hardware and software systems effectively.
CLO 3	Use office productivity tools (Word, Excel, PowerPoint) for academic and professional tasks.
CLO 4	Apply safe internet practices and use internet tools for communication and information retrieval.
CLO 5	Understand and explain the concepts of Data Analytics, Artificial Intelligence (AI), and Machine Learning (ML)
CLO 6	Understand the concept of free-lancing

Course Contents:

Unit	Specific Objectives	Content	Teaching and Learning Approach
Unit 1: Introduction to Information and Communications Technology (ICT) and Computer System	The student will be able to: • Explain the concept of ICT and its related terminologies. • Describe the information processing cycle. • Analyze the impact of ICT on educational, social and economic development. • Identify career opportunities in ICT education. • Differentiate among the classes of computers and the usages of them. • Identify the vital components of the Systems Unit. Course Title:	**Lab: Information and Communication Technology**		

Course Objectives:

The main objective of the course is to teach the students' understanding and skills in using, and applying technology to solve problems and enhance various aspects of life and work. It includes assembling hardware, installing software, preparing PPT slides, and producing Word and Excel documents.

Course Learning Outcomes:

The student will be able to:

CLO 1	Learn assembling hardware
CLO 2	Prepare, edit and print Word documents and excel

CLO 3	Prepare Power Point presentation.
CLO 4	Access information from Internet, e-mail
CLO 5	Installation of anti-virus software
CLO 6	Data collection, Prediction, Pattern recognition, classification
CLO 7	Exploring markets, Proposal writing, Simulation strategies

List of Experiments

CLO Addressed	Unit	Experiments	Teaching Learning Approach
CLO1	1-4	• Assemble different hardware • Install different software • Operate the computer - Drive, folder and file management • Maintenance	Lab and Hands-on Practice
CLO 2	3	**Word** • Prepare a Word document on a specific topic (e.g, routine, question paper, CV, reports, applications) • Formatting the document (Alignment, table, border, watermark, etc.), e.g., newspaper article, academic report, or documentation used in daily life, book, poster • Print documents with different paper and printers	Lab and Hands-on Practice
CLO 2	4	• **Excel** • Prepare a grade sheet • Prepare a family expenditure • Prepare a business expenditure report • Prepare payroll management, with a report • Create graphs on the given data • Print Excel files	Lab and Hands-on Practice
CLO 3	5	**Power point** • Prepare an academic presentation on a specific topic. • Formatting the slides & using different tools. • Apply animation and transition • Print PPT files in different modes: Hand note, Slides shorter, outline	Lab and Hands-on Practice
CLO4	6	• Install antivirus software, e.g., Norton Antivirus, McAfee, Kaspersky, Avast.	Lab and Hands-on Practice
CLO5	7	• Use of email • Access information from the internet, use a search engine.	Lab and Hands-on Practice

		• Use of virtual drive for collaboration • Google Meet	
CLO6	8	• Data Collection and Visualization (Excel) • Simple Prediction (Excel) • Pattern recognition (Teachable Machine) • Classification (Teachable Machine)	Lab and Hands-on Practice
CLO7	9	**Free lancing** • Marketplace exploration and portfolio creation • Proposal writing • Payment simulation	Lab, Hands-on, Group Work, Discussion

Instructions for the Lab:

1. Lab sessions should be hands-on, with students engaging in tasks like assembling hardware, installing software, and using office tools.
2. Software like Microsoft Word, Excel, PowerPoint, and Teachable Machine will be used for document creation, data analysis, and basic machine learning.
3. Labs also include antivirus installation, email use, and online collaboration via Google Meet and Drive, emphasizing teamwork and problem-solving.

Instructions for the Lab exam:

1. The lab exam is individual. Students must answer two out of seven questions.
2. Marks distribution: Experiment (20 marks, 10 for each) for practical tasks, Viva-Voce (5 marks) for oral assessment. Total: 25 marks.
