NATIONAL UNIVERSITY
BANGLADESH

First Year Syllabus
Department of Social Work

Four-Year BSS Honors Program
Effective from the Session: 2024-2025

Mission

To promote “Progress for Everyone” by fostering transformative education, conducting pioneering research, and encouraging meaningful collaboration with individuals, communities, and partners both in Bangladesh and around the world.

Vision

We expect that the hundredth anniversary of the National University, our commitment to “Progress for Everyone” will be evident in all areas of our operations and stakeholder engagements.

We leverage our core strength in education, research, and community engagement to address pressing global issues and foster sustainable development.

By 2042, National University aims to strengthen its positions as Bangladesh’s top academic institution and rank among the world’s leading universities. Our focus will be on expanding expertise building strategic partnerships, and increasing our global influence. Our services will be measured by the achievements of the individuals and communities we serve.

Name of the Program: Bachelor of Social Science (BSS) in Social Work

BSS Honors Program

Honors program at National University is covering four years, full time program with theoretical courses of instruction, field practicum, internship, practice research and examination. On campus Honor’s program has been inaugurated recently.

Field Practicum and Field visit

The hallmark of social work education is fieldwork practice, which is an essential component of the curriculum and syllabus. Students are tasked with working with various social welfare and social services organizations for field experiences in order to improve the curriculum. Typically, both Honors and Masters level social work students complete 576 working hours of fieldwork experience over the course of 60 working days and 12 days for report writing. All of the students are closely supervised and observed by agency and department supervisors, and following their field practice, the students prepare a final field practicum report. The assigned faculty of the social work department often conducts field visits.

Introduction to Social Work Department

In order to help the nation in its quest for solving social problems by producing highly skilled professionals and researchers who can plan, design and carry out development interventions in an effective and efficient manner, the department of social work at National University has decided to launch BSS, Degree (Pass), MSS, MPhil, PhD programs from 1992-1993 academic year. The program's goal is to give students a multidisciplinary, high-quality education and training while assisting them in analyzing social problems a holistic grasp of and insights into

social development. Bangladesh is performing surprisingly well when various socioeconomic development metrics are taken into account and because of the introduction of creative programmatic initiatives, the nation is regarded as a testing ground for social and developmental research. Development partners in Bangladesh include both governmental and non-governmental organizations.

Graduates in social work will be in a gainful position due to their exercise and will contribute to the national and international organizations where they will be employed be it government, private or NGOs and the society as a whole. Social Work is the study of social transformation by giving solution of multi-dimensional social problems. Students of social work examine the problems, processes, and prospects for the social development of anthropological and material resources in spaces which are usually assumed to be the less developed areas of Bangladesh and the world. The challenges of 4th industrial revolution and the existing social problems of the society are urgent, massive and enormously complex and they transcend the restrictions of conservative academic disciplines. To study comparative social development effectively, one must draw upon many disciplines and construct a composite understanding of historic and present-day procedures. Thus, studying social work as a service delivery system requires an amalgamation of knowledge and perspectives from political science, economics, sociology, psychology, anthropology, geography, history, statistics and life sciences.

In light of this, social work encompasses an interdisciplinary focus that has been created to offer a comparative perspective on the long-term social, political, and economic changes that have gone hand in hand with industrialization and the pattern of social development of the developing and modern states in Africa, Asia, Latin America, and the Middle East. It also emphasizes on historical experience and evolution of industrial revolution in Great Britain, United States of America and European countries.

Vision of the Department

The vision of the department is to produce skilled and competent social workers to promote human dignity, well-being of the community and sustainable development through education, research, learning and social services by addressing social problem and activating human resources.

Mission of the Department

The mission of the department of social work is to yield highly trained and skilled manpower as well as to face upcoming challenges of the fourth industrial revolution. Specifically, the missions are as follows-

M1: To prepare the students with theoretical and practical knowledge to know and understand multidimensional social problems.
M2: To train the apprentices with field-based knowledge for social work practice in the context of diversified social and economic problems.

M3: To groom leadership for carrying about positive social change and making them competent for delivering well-planned social services to maximize the welfare of the society with cultural sensitivity and professionalism.
M4: To create new knowledge and social policy through scholastic work, research, innovation and efficient practice.
M5: To equip students of maintaining social values, ethical protocol set by social work professional body for addressing social needs and problems.
M6: To work for the betterment of the professional standards of social work in national and international arena.

Values

The departmental value provides the pathway of academic work. The values of the department of social work are keen to accelerate the excellences of social work education, learning, research and service delivery system. It upholds the core values of social work profession. Such as:

Course Code: 212107	Marks: 100	Credits: 4	Credit Hours: 60	BSS Hon's 1st Year
Course Title: Social Problem Analysis and Interventions				Course Orientation: Theoretical

Course Description

This course aims to help students gain a deeper understanding of social issues in developing countries such as Bangladesh. The course also emphases on studying social issues from various theoretical viewpoints. Students will gain an understanding of the role of various actors in alleviating social issues and how to use their knowledge and skills in social work. By taking this course, students will gain an in-depth understanding of social work interventions, as well as the context and process of various interventions for a specific group of people in a given community. They will also gain insights into different interventions and how they can be used to address social issues in social work practices.

Course Learning Objectives

The learning objectives of this course are to:

- Assist students with an understanding of the various social work interventions;
- Provide context, techniques and procedures;
- Afford an understanding of the significance of the social work interventions;
- Support students to know about role of social actors in mitigating social problems;
- Offer students with practical social work interventions;
- Learn about different social work intervention techniques Learn about different practice settings.

Course Contents

Chapter	Topics	Teaching Learning Strategy	CLOs
1	**Elementary Issues Relating to Social Problems:** Meaning, Characteristics and Causes of Social Problems, Limitation and Social Problem, Cultural Lag and Conflict, Value Conflict and Dilemma, Class Conflict, Deviant Behavior and Labeling, Unequal Distribution of Repapers and Opportunities.	Lectures, PP Presentations, Content Analysis, According to Pedagogy.	CLO1, CLO2
2	**Major Social Problems in Bangladesh:** Poverty, Population Explosion (Malthusian Thought), Illiteracy, Unemployment, Malnutrition, Role-Status Conflict, Crime and Juvenile Delinquency, Youth Gangs, Cybercrime.	Lesson Plans, Lectures, Handouts, Paraphrasing, Rewrite.	CLO3

3	**Major Social Evils in Bangladesh:** Corruption, Beggary, Dowry, Violence against Women, Immoral Trafficking, Plagiarism, Child Labor, Drug Addiction, HIV/AIDS, Pornography and Prostitution, Causes, Consequences and Remedial Measures of Social Problems and Evils.	Lectures, Handouts, Exhibition of Audio-Visual Recordings	CLO3
4	**Role of Social Actors in Mitigating Social Problems and Evils:** Law, Family, Religion, Political Activists and Lobbyists, Entrepreneurs, Academics and Social Researchers, Columnist and Other Helping Professionals, Role of Social Action, Community and State in Combating Social Problems.	Lesson Plans, Class Lectures, PP Presentations, Rewrite	CLO4
5	**Social Problems and Social Work:** Use of Social Work Knowledge, Skills and Perspectives in Dealing with Social Problems.	Lectures, Seminar Presentation, Group Discussion.	CLO4, CLO6
6	**Intervention:** Purpose, Levels of Intervention (Individual, Group and Community), Types of Social Work Intervention and it's role for Combating Social Problems; a. Counseling, b. Advocacy, c. Motivation, d. Arbitration, e. Negotiation.	Lectures, Content Analysis, Group Study	CLO5
7	**Phases of Social Work Intervention:** Engagement, Assessment, Planning, Implementation, Evaluation, Prognosis, Termination and Follow-Up.	Lectures, Handouts, Audio-Visual, Paraphrasing	CLO5
8	**Social Work Interventions in Different Practice Settings:** Family, School, Industry, Youth and Child Welfare, Disaster Vulnerability, Distorted Development, Hard-to-Reach Patient, Sexual Abuse, Elderly Care and Healthcare.	Lectures, Handouts, Audio-Visual Recordings, Visit And Demonstration	CLO4, CLO6

Course Learning Outcomes

After completing the course, students will be able to:

CLO1: Learn about social problem and how they relate to each other;
CLO2: Analyze social problem from various theoretical perspectives;
CLO3: Elucidate the root causes and effects of social issues;
CLO4: Learn about role of social actors in combating social problems;
CLO5: Understand how interventions work for target people;
CLO6: Apply social work interventions to address disaster vulnerability, head-to-reach patient, violence and sexual abuse.

Paper Code:	213407	Marks: 100	Credits: 4	Class Hours:60
Paper Title:	Basic Psychology (Allied Course)			

Course Description

This course provides an introduction to psychology, covering the various approaches, subfields, and methods in the discipline. Students will explore the biological foundations of behavior, sensation and perception, learning, memory, language, and problem-solving. The course also delves into theories of motivation, emotion, personality, and intelligence, providing a broad understanding of psychological concepts and processes. It will offer a foundation for understanding human behavior from both a scientific and practical perspective.

Course Learning Outcomes (CLOs)

After going through the course, students will be able to learn the following outcomes:

CLO1	Define the key concepts of psychology, including its nature as a science, and explain the different approaches to the study of psychology (neurobiological, behavioral, cognitive, psychoanalytic, and humanistic approaches.
CLO2	Analyze the biological bases of behavior, including the structure and function of the nervous system, neural transmission, and the major divisions of the nervous system
CLO3	Apply principles of sensation and perception to real-world scenarios, understanding sensory thresholds, attention, and depth perception
CLO4	Demonstrate an understanding of the learning process, including classical and operant conditioning, and apply these theories to human behavior and cognitive development

SOCIOLOGY (Allied Course)

Course Code	**212009**	**Marks:100**	**Credits:4**	**Class Hours:60**
Course Title:	**Introducing Sociology**			

Course Objectives

The course is designed to provide foundational knowledge of sociology as a social science. It will explain key concept, principles and perspectives in sociology. It will highlight various structural issues like major social institutions, social classes, inequality, , population and urbanization. Besides this, the course helps the students to develop sociological thinking to understand society and human behavior.

Course Learning Outcomes (CLOs)

After going through the course, students will be able to learn the following outcomes

CLO1	Students will be demonstrating knowledge about preliminary ideas of sociology.
CLO2	They will be informed about the contributions of sociologists.
CLO3	They will apply several procedures of scientific social research.
CLO4	They will explain various terms of culture and cultural diversity in society.
CLO5	Students will get knowledge about different types and evolution of society.
CLO6	Students will know both about social institutions and various factors which contribute to social stratification and mobility within society.
CLO7	They will recognize different social problems of Bangladesh.

CLO8	They will be able to analyze the influences of social forces on individual behaviour and social change which happens globally.

Course Title:	Information and Communication Technology		

Course Objectives:

The main objective of the course is to develop students' understanding and skills in using, managing, and applying technology to solve problems and enhance various aspects of life and work. Key areas of focus include understanding ICT systems, software, hardware, networks, and their applications.

Course Learning Outcomes: The student will be able to:

CLO 1	Explain foundational ICT concepts, including the information processing cycle.
CLO 2	Operate standard computer hardware and software systems effectively.
CLO 3	Use office productivity tools (Word, Excel, PowerPoint) for academic and professional tasks.
CLO 4	Apply safe internet practices and use internet tools for communication and information retrieval.
CLO 5	Understand and explain the concepts of Data Analytics, Artificial Intelligence (AI), and Machine Learning (ML)
CLO 6	Understand the concept of free-lancing

Course Contents:

Unit	Specific Objectives	Content	Teaching and Learning Approach
Unit 1: Introduction to Information and Communications Technology (ICT) and Computer System	The student will be able to: • Explain the concept of ICT and its related terminologies. • Describe the information processing cycle. • Analyze the impact of ICT on educational, social and economic development.	Definition of ICT, basic concepts and terminologies. Data, Information Application of ICT, Advantages and Disadvantages of ICT, Impact of ICT Career opportunities in ICT education Information Processing Cycle. Classification of Computers The Vital Components of the	Classroom Lectures

	• Identify career opportunities in ICT education. • Differentiate among the classes of computers and the usages of them. • Identify the vital components of the Systems Unit.	Systems Unit.	
Unit 2: Computer Hardware and Software	The student will be able to: • Describe the categories of Computer Hardware. • Describe the commonly used Input and Output devices • Identify the main processing devices, storage devices and media. Identify the main communication devices. • Identify types of Software packages. • Distinguish between an Operating System and Application software. • Identify different types, examples and uses of Operating Systems and Application software • Distinguish between Open Source and Proprietary Software.	Categories of Computer Hardware: Input devices, Processing devices, Output devices, Storage devices Communication devices, Main Processing Devices: The Processor, Control Unit and Arithmetic and Logic Unit Software Packages, Operating Systems, Types and uses of Operating Systems, Types and uses Application Software: Educational software, Games software, Graphics software Browsers: Internet explorer, Google chrome, Mozilla Firefox, Opera, Internet explorer, Mozilla Firefox; Proprietary and Open Source Software	Classroom lectures and Lab
Unit 3: Introduction to Word Processing Application	• The student will be able to: • Identify Word Processing packages. • Create and save a document using the Word Processor. • Format a Word document using formatting tools. Demonstrate the ability	Word Processing Packages and Their Uses. Introduction of Microsoft Word Software. File creation and saving: New, Save, Open, Save As. Editing: Copy/Cut, Paste, Undo, Redo, Find, Replace, Clipboard, Sub-Headings And Paragraphs, Text Correction, Wrapping Text, Text	Classroom Lectures, Lab, and Hands-on Practice

	to perform collaborative editing. • Insert tables in a Word Processing document. • Insert symbols and pictures in Word Processing documents. • Use layout techniques in document creation. • Inserting headers and footers. • Print documents using the various print options.	Orientation **Formatting:** Font: Style, Size, Color, Bold, Underline, Italic, Superscript, Subscript, Shadow, Strikeout. Paragraph: Alignment, Bullet & Numbering, Indent, Line Spacing, Table Border **Insert:** Table, Picture, Shape, Smart Art, Chart, Header, Footer, Page Number, WordArt, Drop Cap, Symbols, Equations, Hyperlink, Comment. **Page Design:** watermark, page border **Layout:** Page setup, print	
Unit 4: Spreadsheet Application	• The student will be able to: • Identify Spreadsheet Packages. • Explain the importance of the Spreadsheet application in data management. • Explain related concepts and terminologies in the Spreadsheet. • Identify features in the Spreadsheet application window. • Create and save a Workbook. • Construct and insert simple formulae and functions. • Format the worksheet using formatting tools. • Printing a worksheet.	Spreadsheet Packages, e.g. Excel. Importance of Spreadsheet application in Data Management, Related Concepts and Terminologies (e.g., cell(s), rows, columns, worksheet, workbook) Excel Tool Bars: Formatting Bar, Standard Bar, Formula Bar. Types of Data and Their Uses (e.g., number, date, text, currency), Creating and Saving a Workbook, Formula and Functions, Sorting, filtering, validation, creating pivot table. Formatting Worksheet Using Formatting Tools. Draw Graph/chart, Printing Worksheet.	Classroom Lectures, Lab and Hands-on Practice

Unit 5: Presentation Application	• The student will be able to: • State the importance of the Presentation application. • Identify the commonly used features of a Presentation application while prepare a presentation. • Create and save presentations using a template, Add new slide(s). Edit text, Format text, Insert objects, images and pictures, Run slide show, Apply transition, animation effects to slides • Select the print option for printing. • Prepare a presentation on a selected topic and present it.	Presentation Applications Packages, Devices used for Presenting, Importance of Presentation Application, Principles for Designing Presentations, Terminologies in Presentation Application (eg, , Slide transitions, Slide show, etc.), Commonly Used Features of Presentation Application Window: Toolbars, Different presentation view modes Prepare a Presentation: Slide creating, editing, theme, background, inserting elements (image, audio, video hyperlink, table, smart art, graph, etc.) and formatting slides, Slide Layout, slide Show, slide transition, animation Effects. Selection of Print Option: Entire presentation, Specific slides, Handouts, Notes pages, outline view of slides.	Classroom Lectures, Lab and Hands-on Practice
Unit 6: Privacy and Security	The student will be able to: • Understand the basics of digital security • Use some security tools. • Understanding digital ethics.	Introduction to Information Security, cybercrime, DoS and DDoS Attack, Key Management, Digital Signature and Certifications, privacy, Data Security, Vulnerability, Threat and Risk, Malware, Social Engineering, Hacking, Plagiarism, Fishing, Software Piracy, Worms and Viruses, Spam, Adware, Malware, Spyware, Antivirus Software Ethics in the digital world	Classroom Lectures, Lab and Hands-on Practice
Unit 7: Using The Internet to Communicate and Accessing	• The student will be able to: • Explain basic concepts,	Internet, Intranet, Extranet, IP Address, Masking, MAC Address, Internet Services, OSI Reference Model, TCP/IP protocol stack, IPv4, IPv6, subnet Masking, MAC Address,	Classroom Lectures, Lab and Hands-on Practice

Information	requirements, and terminologies of the Internet • Apply the rules and regulations in the use of the internet. • Using email • Use the internet social network to communicate. • Use Uniform Resource Locators (URLs) to access Information. Use search engines to access information • Upload files to virtual drives and work on it.	Internet Services, Network Configuration and Troubleshooting, Wi-Fi, Broadband, Email Usage. Rules and Regulations in the Use of the Internet: Spam-Unsolicited Emails, People's Privacy, Intellectual Property Rights, etc. E-mail: Creating an Email Account, Sending, Accessing Email Messages, Attaching Documents to Email Messages, Using the Internet: Social Networks to Communicate, Uniform Resource Locators (URLs) to Access Information, Using Search Engines, Downloading Information from the Internet. Transferring Information from the Internet to a Different Application Intellectual Property Rights, ICT Policy, Software Piracy etc. Using Cloud Space: Google Drive, Google Workspace, OneDrive, Dropbox, etc.	
Unit 8: Emerging Technologies: Data analytics, Artificial intelligence, Machine learning	• Define Data Analytics, Artificial Intelligence (AI), and Machine Learning (ML). • Understand how data is collected, processed, and used for decision-making. • Recognize the role of AI and ML in everyday life. • Explain basic differences between AI and ML. • Discuss benefits and challenges of these	**Introduction to Data Analytics:** Define Data, Types of Data, Define Data Analytics, Basic Steps in Data Analytics, Applications of Data Analytics, Common Tools of Data Analytics (Excel, Tableau, Power BI, Python, SQL, etc.). **Artificial Intelligence (AI):** Define AI, Objectives of AI, AI capabilities, AI applications (NLP, Image Recognition, Predictive Analytics, Recommender Systems,	Classroom Lectures, Lab and Hands-on Practice

	technologies. • Recognize current trends and career opportunities in these fields.	Robotics, etc.); **AI Tools**: OpenAI GPT, TensorFlow, PyTorch, Keras, Scikit-learn,etc.), AI in daily life (Voice assistants, facial recognition, GPS route suggestions, chatbots, etc.) . **Machine Learning (ML):** Define Machine Learning (ML), How It Works, Classification of ML, applications of ML, and common ML platforms (Teachable Machine, TensorFlow, PyTorch, Microsoft Azure Machine Learning, etc.). Relationship Between Data Analytics, AI, and ML Benefits & Challenges of Data Analytics, AI, and ML. Future Trends & Career Paths.	
Unit 9: Introduction to Freelancing	The student will be able to: • Define and explain the fundamental concept and significance of freelancing in the global context. • Identify and categorize various online marketplaces and professional fields. • Develop professional profiles, portfolios, and proposals suitable for freelancing platforms. • Demonstrate the use of online payment systems and financial transaction	Introduction and Basic Concepts, Fields of Freelancing, Essential Skills and Preparation, Introduction to Freelancing Marketplaces, Creating Profile and Portfolio, Earning and Transaction Process, Building a Freelancing Career, Challenges and Solutions.	Classroom Lectures, Practical Demos, Assignments, Discussions

	methods. • Analyze and evaluate strategies for career development and effectively apply techniques to overcome freelancing challenges.

Course Code	**219904**	**Marks: 25**	**Credit: 1**
Course Title:	**Lab: Information and Communication Technology**		

Course Objectives:

The main objective of the course is to teach the students' understanding and skills in using, and applying technology to solve problems and enhance various aspects of life and work. It includes assembling hardware, installing software, preparing PPT slides, and producing Word and Excel documents.

Course Learning Outcomes:

The student will be able to:

CLO 1	Learn assembling hardware
CLO 2	Prepare, edit and print Word documents and excel

CLO 3	Prepare Power Point presentation.
CLO 4	Access information from Internet, e-mail
CLO 5	Installation of anti-virus software
CLO 6	Data collection, Prediction, Pattern recognition, classification
CLO 7	Exploring markets, Proposal writing, Simulation strategies

List of Experiments

CLO Addressed	Unit	Experiments	Teaching Learning Approach
CLO1	1-4	• Assemble different hardware • Install different software • Operate the computer - Drive, folder and file management • Maintenance	Lab and Hands-on Practice
CLO 2	3	**Word** • Prepare a Word document on a specific topic (e.g, routine, question paper, CV, reports, applications) • Formatting the document (Alignment, table, border, watermark, etc.), e.g., newspaper article, academic report, or documentation used in daily life, book, poster • Print documents with different paper and printers	Lab and Hands-on Practice
CLO 2	4	• **Excel** • Prepare a grade sheet • Prepare a family expenditure • Prepare a business expenditure report • Prepare payroll management, with a report • Create graphs on the given data • Print Excel files	Lab and Hands-on Practice
CLO 3	5	**Power point** • Prepare an academic presentation on a specific topic. • Formatting the slides & using different tools. • Apply animation and transition • Print PPT files in different modes: Hand note, Slides shorter, outline	Lab and Hands-on Practice

CLO4	6	• Install antivirus software, e.g., Norton Antivirus, McAfee, Kaspersky, Avast.	Lab and Hands-on Practice
CLO5	7	1. Use of email 2. Access information from the internet, use a search engine. 3. Use of virtual drive for collaboration 4. Google Meet	Lab and Hands-on Practice
CLO6	8	• Data Collection and Visualization (Excel) • Simple Prediction (Excel) • Pattern recognition (Teachable Machine) • Classification (Teachable Machine)	Lab and Hands-on Practice
CLO7	9	**Free lancing** • Marketplace exploration and portfolio creation • Proposal writing • Payment simulation	Lab, Hands-on, Group Work, Discussion

Instructions for the Lab:

1. Lab sessions should be hands-on, with students engaging in tasks like assembling hardware, installing software, and using office tools.
2. Software like Microsoft Word, Excel, PowerPoint, and Teachable Machine will be used for document creation, data analysis, and basic machine learning.
3. Labs also include antivirus installation, email use, and online collaboration via Google Meet and Drive, emphasizing teamwork and problem-solving.

Instructions for the Lab exam:

1. The lab exam is individual. Students must answer two out of seven questions.
2. Marks distribution: Experiment (20 marks, 10 for each) for practical tasks, Viva-Voce (5 marks) for oral assessment. Total: 25 marks.

List of Books:

Comer, D. E. (2018). *The internet book: Everything you need to know about computer networking and how the internet works* (5th ed.). Chapman and Hall/CRC Press.

Lambert, J., & Frye, C. (2015). *Microsoft office 2016 step by step*. Microsoft Press

Course Code: 219901	Marks: 100	Credits: 4	Credit Hours: 60	BSS Hon's 1st Year
Course Title: History of Bangladesh: Language, Culture and Identity				Course Orientation: Theoretical

Course Objective

This course is designed to help undergraduate students from diverse academic backgrounds develop a comprehensive and nuanced understanding of the historical development of Bangladesh, with a particular focus on its language, culture, and identity. By critically examining a variety of historical events, socio-political movements, and cultural shifts from ancient times to the contemporary period, students will have the opportunity to trace the evolution of the Bengali nation. The course aims to foster informed citizenship through an exploration of the Liberation War, identity formation processes, cultural heritage, the lives and contributions of key political figures, and the roles of ethnic minorities. Ultimately, the objective is to equip learners with the intellectual tools necessary to contextualize current national debates and to recognize the role of youth and globalization in shaping the future of Bangladesh.

Course Learning Outcomes

At the end of the course, learners will be able to:

CLO 1: Recall key historical events, dates, movements, personalities, and cultural developments that contributed to the emergence of Bangladesh from the pre-colonial period to the present day.

CLO 2: Demonstrate an understanding of the socio-political, linguistic, and cultural influences that shaped Bengali identity and nationalism, emphasizing the Language Movement, Liberation War, and subsequent democratic uprisings.

CLO 3: Apply their historical and cultural understanding to interpret contemporary national issues and debates relating to identity, political reform, and cultural transformation in Bangladesh.

CLO 4: Analyze how historical events, political ideologies, and social changes are interconnected in shaping the current socio-political landscape of Bangladesh, with a particular emphasis on the roles of movements, minorities, and the youth.
