NATIONAL UNIVERSITY
BANGLADESH

Syllabus for
Department of Finance and Banking

Four-Year BBA (Honours) Program
Effective from the Session: 2024–2025

1. Mission

To promote "Progress for Everyone" by fostering transformative education, conducting pioneering research, and encouraging meaningful collaboration with individuals, communities, and partners both in Bangladesh and around the world.

2. Vision

We expect that the hundredth anniversary of the National University, our commitment to "Progress for Everyone" will be evident in all areas of our operations and stakeholder engagements.

We leverage our core strength in education, research, and community engagement to address pressing global issues and foster sustainable development.

By 2042, National University aims to strengthen its positions as Bangladesh's top academic institution and rank among the world's leading universities. Our focus will be on expanding expertise building strategic partnerships, and increasing our global influence. Our services will be measured by the achievements of the individuals and communities we serve.

3. Name of the Program Offering Entity: School of Undergraduate Studies, National University, Bangladesh

4. Name of the Program: Bachelor of Business Administration (BBA) in Finance & Banking

5. Description of the Program

The duration of the Bachelor of Business Administration (BBA) in Finance and Banking shall be four academic years. An academic year comprises twelve months. For achieving the Degree of BBA in Finance and Banking, an individual requires to earn a total of **148** credit points successfully with a minimum CGPA of 2.00; and complete the program within **seven** academic years from his/her 1st admission to the program. An individual who failed to earn **148** credits with minimum CGPA 2.00 but earned at least 110 credits with minimum grade points 2.00 for each course will be eligible for a BBA Pass Degree.

6. Program Educational Objectives (PEOs)

PE0 1: Produce skilled business graduates by developing learners' theoretical and practical knowledge and managerial abilities in the field of finance and banking.

PEO 2: Develop learners' skills toward meeting the demand of 21st century complex workplace that will enhance employability.

PEO 3: Offer students contemporary academic contents through activity-based classroom that will ensure graduate competencies in the market-place.

PEO 4: Develop innovation capabilities among the graduates that will promote entrepreneurship as a profession.

PEO 5: Develop professional and ethical responsibilities among graduates which will help them to ensure sustainability in business practices.

PEO 6: Develop learners' meta cognitive skills and emotional intelligence that enable them as effective thinkers in the competitive business landscape.

PEO 7: Produce technologically skilled graduates in the field of finance and banking that will make them as distinct human capital in the competitive job market.

PEO 8: Develop research skills among the graduates so that they can engage in innovation collaborating international communities.

7. Program Learning Outcomes (PLOs)

At the time of graduation, BBA in Finance & Banking students will have achieved the ability to:

PLO 1: Deal with the business problems in real life by applying the knowledge of finance and banking.

PLO 2: Analyze and interpret complex data for decisions-making.

PLO 3: Create new venture through entrepreneurial skills for the advancement of socio-economic development.

PLO 4: Deal with the global business practices and cross-cultural management.

PLO 5: Demonstrate strong knowledge of the different areas of finance and banking through applying managerial and leadership capabilities in diverse business environments.

PLO 6: Analyze and interpret as the financial analyst and financial manager to develop financing investment decision for corporations.

PLO 7: Demonstrate a comprehensive understanding of social responsibility and use ethical frameworks to make informed and responsible financial decisions.

PLO 8: Develop strong foundation in business administrations for addressing and solving real life challenges.

8. Mapping PLOs with PEOs

PEOs / PLOs	PEO-1	PEO-2	PEO-3	PEO-4	PEO-5	PEO-6	PEO-7	PEO-8
PLO-1						✓		
PLO-2								✓
PLO-3				✓				
PLO-4							✓	
PLO-5	✓							
PLO-6			✓					
PLO-7					✓			
PLO-8		✓						

9. Year Wise Courses and Marks Distribution

Course Code	Course Title	Marks	Credits
219901	History of Bangladesh: Language, Culture and Identity	100	4
219903	Information and Communication Technology	75	3
219904	Lab: Information and Communication Technology	25	1
212401	Principles of Finance (In English)	100	4
212403	Introduction to Business	100	4
212405	Business Communication (In English)	100	4
212407	Principles of Accounting (In English)	100	4
212409	Business Mathematics (In English)	100	4
212411	Microeconomics	100	4
Total		800	32

Detailed Syllabus

Course Code:	219901	Marks: 100	Credits: 4
Course Title:	History of Bangladesh; Language, Culture, and Identity		Hours: 60

Course Objective:
This course is designed to help undergraduate students from diverse academic backgrounds develop a comprehensive and nuanced understanding of the historical development of Bangladesh, with a particular focus on its language, culture, and identity. By critically examining a variety of historical events, socio-political movements, and cultural shifts from ancient times to the contemporary period, students will have the opportunity to trace the evolution of the Bengali nation. The course aims to foster informed citizenship through an exploration of the Liberation War, identity formation processes, cultural heritage, the lives and contributions of key political figures, and the roles of ethnic minorities. Ultimately, the objective is to equip learners with the intellectual tools necessary to contextualize current national debates and to recognize the role of youth and globalization in shaping the future of Bangladesh.

Course Learning Outcomes:

At the end of the course, learners will be able to:

CLO 1: Recall key historical events, dates, movements, personalities, and cultural developments that contributed to the emergence of Bangladesh from the pre-colonial period to the present day.

CLO 2: Demonstrate an understanding of the socio-political, linguistic, and cultural influences that shaped Bengali identity and nationalism, emphasizing the Language Movement, Liberation War, and subsequent democratic uprisings.

CLO 3: Apply their historical and cultural understanding to interpret contemporary national issues and debates relating to identity, political reform, and cultural transformation in Bangladesh.

CLO 4: Analyze how historical events, political ideologies, and social changes are interconnected in shaping the current socio-political landscape of Bangladesh, with a particular emphasis on the roles of movements, minorities, and the youth.

Course Contents:

Course contents	Teaching Learning Strategy	CLOs
1. Pre-colonial Era • Life and Culture of the People in Ancient Bengal • Bengal Under Muslim Rulers: Society, Culture, and Religion • Role of the Sufis in Preaching Islam and Impacts of	Interactive lectures	CLO 1-2

• Sufism on the Bengali Society • Bengali Society and Culture in the Writings of Foreigners		
2.Colonial Era (18th and 19th Century) • The Battle of Plassey (1757)and the Beginning of British Colonialism • Bengal Renaissance • Reforms in Hindu Society • New Forms in Bengali Literature and Culture • The Muslim Response to Western Education	Interactive lectures, reading,and assignments	CLO 1-2
3.Colonial Era (First Half of the 20th Century) • Partition of Bengal (1905) • Hindu-Muslim Disagreements • Formation of the All India Muslim League (AIML) • Muslim Shahitya Samaj • Buddhir Mukti Andolan:The Urge for Rational Thinking in Bengali Muslim Society • Growth of Religion-based Identity • Politics of Hindutva and the Two-Nation Theory • Spread of Communalism in Society • The Partition of India and Bengal	Interactive lectures andgroup discussions	CLO 2-3
4.Post-Partition Era(1947-1971) • Language Movement • Political, Economic, and Cultural Aspects • Growth of Vernacular Nationalism • Cultural Activism	Interactive lectures and group discussion	CLO 2-3
5. Changing Bengali Identity • The Evolution of Bengali Identity in the Context of Language, Culture, and Religion • From Ancient Times to the Present • The Role of the Bengali Language in Shaping Identity • The Language Movement of 1952 and Its Long-term Impact on National • Consciousness • The Influence of Religion on Bengali Identity • The Impact of Socio-political Movements on Identity Formation • The Liberation War of 1971 • Contemporary Debates on Bengali Identity • The Role of Youth in Redefining Identity • The Influence of Globalization	Interactive lectures and thematic assignments	CLO 2-3
6. Liberation Movement of 1971 and Mass Uprising till 2024 • The Political and Economic Exploitation of East Pakistan by West Pakistan • Six (6) Points Movement, Uprising of 1969 • The 1970 General Elections • The Non-cooperation Movement and the Declaration of	Interactive lectures, group discussions, and thematic	CLO 1 CLO 3-4

Independence • The Role of AK Fazlul Haque, Huseyn Shaheed Suhrawardy, Maulana Bhashani, Sheikh Mujibur Rahman and Ziaur Rahman • The Liberation War of 1971 • Genocide and Resistance • The Role of the Mukti Bahini • Post-independence Challenges • Nation-building • Political Instability • Mass Uprisings and Democratic Movements • The Anti-autocracy Movement of the 1980s • The 1990s Movement for Democracy and Afterwards • The 2024 Movements for Political and Social Reforms	assignments	
7. History of Other Ethnic Groups • The Indigenous Communities of Bangladesh • Historical Presence • Cultural Practices • Land Rights and Cultural Assimilation • Contributions and Sacrifices • Political Representation of Ethnic Minorities	Interactive lectures and group discussions	CLO 4
8. Cultural Heritage and Modern Transformations • The Evolution of Bengali Culture • From Ancient Traditions to Modern Expressions • The Role of Literature, Music, and Art in Shaping Bengali Identity • Contributions of Rabindranath Tagore, Kazi Nazrul Islam, and Other Cultural Icons • The Impact of Globalization on Bengali Culture • The Revival of Traditional Arts • The Role of Youth in Cultural Innovation Urbanization • Environmental Changes • The Commodification of Culture	Interactive lectures, documentary screening, and thematic assignments	CLO 1-4

Course Code	219903	Marks: 75	Credits: 3
Course Title:	Information and Communication Technology		

Course Objectives:

The main objective of the course is to develop students' understanding and skills in using, managing, and applying technology to solve problems and enhance various aspects of life and work. Key areas of focus include understanding ICT systems, software, hardware, networks, and their applications.

Course Learning Outcomes: The student will be able to:

CLO 1	Explain foundational ICT concepts, including the information processing cycle.
CLO 2	Operate standard computer hardware and software systems effectively.
CLO 3	Use office productivity tools (Word, Excel, PowerPoint) for academic and professional tasks.
CLO 4	Apply safe internet practices and use internet tools for communication and information retrieval.
CLO 5	Understand and explain the concepts of Data Analytics, Artificial Intelligence (AI), and Machine Learning (ML)
CLO 6	Understand the concept of free-lancing

Course Contents:

Unit	Specific Objectives	Content	Teaching and Learning Approach
Unit 1: Introduction to Information and Communications Technology (ICT) and Computer System	The student will be able to: • Explain the concept of ICT and its related terminologies. • Describe the information processing cycle. • Analyze the impact of ICT on educational, social and economic development.	Definition of ICT, basic concepts and terminologies. Data, Information Application of ICT, Advantages and Disadvantages of ICT, Impact of ICT Career opportunities in ICT education Information Processing Cycle. Classification of Computers The Vital Components of the	Classroom Lectures

	• Identify career opportunities in ICT education. • Differentiate among the classes of computers and the usages of them. • Identify the vital components of the Systems Unit.	Systems Unit.	
Unit 2: Computer Hardware and Software	The student will be able to: • Describe the categories of Computer Hardware. • Describe the commonly used Input and Output devices • Identify the main processing devices, storage devices and media. Identify the main communication devices. • Identify types of Software packages. • Distinguish between an Operating System and Application software. • Identify different types, examples and uses of Operating Systems and Application software • Distinguish between Open Source and Proprietary Software.	Categories of Computer Hardware: Input devices, Processing devices, Output devices, Storage devices Communication devices, Main Processing Devices: The Processor, Control Unit and Arithmetic and Logic Unit Software Packages, Operating Systems, Types and uses of Operating Systems, Types and uses Application Software: Educational software, Games software, Graphics software Browsers: Internet explorer, Google chrome, Mozilla Firefox, Opera, Internet explorer, Mozilla Firefox; Proprietary and Open Source Software	Classroom lectures and Lab
Unit 3: Introduction to Word Processing Application	• The student will be able to: • Identify Word Processing packages. • Create and save a document using the Word Processor. • Format a Word document using formatting tools.	Word Processing Packages and Their Uses. Introduction of Microsoft Word Software. File creation and saving: New, Save, Open, Save As. Editing: Copy/Cut, Paste, Undo, Redo, Find, Replace, Clipboard, Sub-Headings And Paragraphs, Text	Classroom Lectures, Lab, and Hands-on Practice

	Demonstrate the ability to perform collaborative editing. • Insert tables in a Word Processing document. • Insert symbols and pictures in Word Processing documents. • Use layout techniques in document creation. • Inserting headers and footers. • Print documents using the various print options.	Correction, Wrapping Text, Text Orientation **Formatting:** Font: Style, Size, Color, Bold, Underline, Italic, Superscript, Subscript, Shadow, Strikeout. Paragraph: Alignment, Bullet & Numbering, Indent, Line Spacing, Table Border **Insert:** Table, Picture, Shape, Smart Art, Chart, Header, Footer, Page Number, WordArt, Drop Cap, Symbols, Equations, Hyperlink, Comment. **Page Design:** watermark, page border **Layout:** Page setup, print	
Unit 4: Spreadsheet Application	• The student will be able to: • Identify Spreadsheet Packages. • Explain the importance of the Spreadsheet application in data management. • Explain related concepts and terminologies in the Spreadsheet. • Identify features in the Spreadsheet application window. • Create and save a Workbook. • Construct and insert simple formulae and functions. • Format the worksheet using formatting tools. • Printing a worksheet.	Spreadsheet Packages, e.g. Excel. Importance of Spreadsheet application in Data Management, Related Concepts and Terminologies (e.g., cell(s), rows, columns, worksheet, workbook) Excel Tool Bars: Formatting Bar, Standard Bar, Formula Bar. Types of Data and Their Uses (e.g., number, date, text, currency), Creating and Saving a Workbook, Formula and Functions, Sorting, filtering, validation, creating pivot table. Formatting Worksheet Using Formatting Tools. Draw Graph/chart, Printing Worksheet.	Classroom Lectures, Lab and Hands-on Practice

Unit 5: Presentation Application	• The student will be able to: • State the importance of the Presentation application. • Identify the commonly used features of a Presentation application while prepare a presentation. • Create and save presentations using a template, Add new slide(s). Edit text, Format text, Insert objects, images and pictures, Run slide show, Apply transition, animation effects to slides • Select the print option for printing. • Prepare a presentation on a selected topic and present it.	Presentation Applications Packages, Devices used for Presenting, Importance of Presentation Application, Principles for Designing Presentations, Terminologies in Presentation Application (eg, , Slide transitions, Slide show, etc.), Commonly Used Features of Presentation Application Window: Toolbars, Different presentation view modes Prepare a Presentation: Slide creating, editing, theme, background, inserting elements (image, audio, video hyperlink, table, smart art, graph, etc.) and formatting slides, Slide Layout, slide Show, slide transition, animation Effects. Selection of Print Option: Entire presentation, Specific slides, Handouts, Notes pages, outline view of slides.	Classroom Lectures, Lab and Hands-on Practice
Unit 6: Privacy and Security	The student will be able to: • Understand the basics of digital security • Use some security tools. • Understanding digital ethics.	Introduction to Information Security, cybercrime, DoS and DDoS Attack, Key Management, Digital Signature and Certifications, privacy, Data Security, Vulnerability, Threat and Risk, Malware, Social Engineering, Hacking, Plagiarism, Fishing, Software Piracy, Worms and Viruses, Spam, Adware, Malware, Spyware, Antivirus Software Ethics in the digital world	Classroom Lectures, Lab and Hands-on Practice
Unit 7: Using The Internet to Communicate and Accessing Information	• The student will be able to: • Explain basic concepts, requirements, and	Internet, Intranet, Extranet, IP Address, Masking, MAC Address, Internet Services, OSI Reference Model, TCP/IP protocol stack, IPv4, IPv6,	Classroom Lectures, Lab and Hands-on Practice

	terminologies of the Internet • Apply the rules and regulations in the use of the internet. • Using email • Use the internet social network to communicate. • Use Uniform Resource Locators (URLs) to access Information. Use search engines to access information • Upload files to virtual drives and work on it.	subnet Masking, MAC Address, Internet Services, Network Configuration and Troubleshooting, Wi-Fi, Broadband, Email Usage. Rules and Regulations in the Use of the Internet: Spam-Unsolicited Emails, People's Privacy, Intellectual Property Rights, etc. E-mail: Creating an Email Account, Sending, Accessing Email Messages, Attaching Documents to Email Messages, Using the Internet: Social Networks to Communicate, Uniform Resource Locators (URLs) to Access Information, Using Search Engines, Downloading Information from the Internet. Transferring Information from the Internet to a Different Application Intellectual Property Rights, ICT Policy, Software Piracy etc. Using Cloud Space: Google Drive, Google Workspace, OneDrive, Dropbox, etc.	
Unit 8: Emerging Technologies: Data analytics, Artificial intelligence, Machine learning	• Define Data Analytics, Artificial Intelligence (AI), and Machine Learning (ML). • Understand how data is collected, processed, and used for decision-making. • Recognize the role of AI and ML in everyday life. • Explain basic differences between AI and ML. • Discuss benefits and	**Introduction to Data Analytics:** Define Data, Types of Data, Define Data Analytics, Basic Steps in Data Analytics, Applications of Data Analytics, Common Tools of Data Analytics (Excel, Tableau, Power BI, Python, SQL, etc.). **Artificial Intelligence (AI):** Define AI, Objectives of AI, AI capabilities, AI applications (NLP, Image Recognition, Predictive Analytics, Recommender	Classroom Lectures, Lab and Hands-on Practice

	challenges of these technologies. • Recognize current trends and career opportunities in these fields.	Systems, Robotics, etc.); **AI Tools**: OpenAI GPT, TensorFlow, PyTorch, Keras, Scikit-learn,etc.), AI in daily life (Voice assistants, facial recognition, GPS route suggestions, chatbots, etc.) . **Machine Learning (ML):** Define Machine Learning (ML), How It Works, Classification of ML, applications of ML, and common ML platforms (Teachable Machine, TensorFlow, PyTorch, Microsoft Azure Machine Learning, etc.). Relationship Between Data Analytics, AI, and ML Benefits & Challenges of Data Analytics, AI, and ML. Future Trends & Career Paths.	
Unit 9: Introduction to Freelancing	The student will be able to: • Define and explain the fundamental concept and significance of freelancing in the global context. • Identify and categorize various online marketplaces and professional fields. • Develop professional profiles, portfolios, and proposals suitable for freelancing platforms. • Demonstrate the use of	Introduction and Basic Concepts, Fields of Freelancing, Essential Skills and Preparation, Introduction to Freelancing Marketplaces, Creating Profile and Portfolio, Earning and Transaction Process, Building a Freelancing Career, Challenges and Solutions.	Classroom Lectures, Practical Demos, Assignments, Discussions

	online payment systems and financial transaction methods. • Analyze and evaluate strategies for career development and effectively apply techniques to overcome freelancing challenges.

Course Code	**219904**	**Marks: 25**	**Credit: 1**
Course Title:	**Lab: Information and Communication Technology**		

Course Objectives:

The main objective of the course is to teach the students' understanding and skills in using, and applying technology to solve problems and enhance various aspects of life and work. It includes assembling hardware, installing software, preparing PPT slides, and producing Word and Excel documents.

Course Learning Outcomes:

The student will be able to:

CLO 1	Learn assembling hardware

CLO 2	Prepare, edit and print Word documents and excel
CLO 3	Prepare Power Point presentation.
CLO 4	Access information from Internet, e-mail
CLO 5	Installation of anti-virus software
CLO 6	Data collection, Prediction, Pattern recognition, classification
CLO 7	Exploring markets, Proposal writing, Simulation strategies

List of Experiments

CLO Addressed	Unit	Experiments	Teaching Learning Approach
CLO1	1-4	• Assemble different hardware • Install different software • Operate the computer - Drive, folder and file management • Maintenance	Lab and Hands-on Practice
CLO 2	3	**Word** • Prepare a Word document on a specific topic (e.g, routine, question paper, CV, reports, applications) • Formatting the document (Alignment, table, border, watermark, etc.), e.g., newspaper article, academic report, or documentation used in daily life, book, poster • Print documents with different paper and printers	Lab and Hands-on Practice
CLO 2	4	• **Excel** • Prepare a grade sheet • Prepare a family expenditure • Prepare a business expenditure report • Prepare payroll management, with a report • Create graphs on the given data • Print Excel files	Lab and Hands-on Practice
CLO 3	5	**Power point** • Prepare an academic presentation on a specific topic. • Formatting the slides & using different tools. • Apply animation and transition • Print PPT files in different modes: Hand note, Slides shorter, outline	Lab and Hands-on Practice
CLO4	6	• Install antivirus software, e.g., Norton Antivirus,	Lab and Hands-

		McAfee, Kaspersky, Avast.	on Practice
CLO5	7	1. Use of email 2. Access information from the internet, use a search engine. 3. Use of virtual drive for collaboration 4. Google Meet	Lab and Hands-on Practice
CLO6	8	• Data Collection and Visualization (Excel) • Simple Prediction (Excel) • Pattern recognition (Teachable Machine) • Classification (Teachable Machine)	Lab and Hands-on Practice
CLO7	9	**Free lancing** • Marketplace exploration and portfolio creation • Proposal writing • Payment simulation	Lab, Hands-on, Group Work, Discussion

Instructions for the Lab:

1. Lab sessions should be hands-on, with students engaging in tasks like assembling hardware, installing software, and using office tools.
2. Software like Microsoft Word, Excel, PowerPoint, and Teachable Machine will be used for document creation, data analysis, and basic machine learning.
3. Labs also include antivirus installation, email use, and online collaboration via Google Meet and Drive, emphasizing teamwork and problem-solving.

Instructions for the Lab exam:

1. The lab exam is individual. Students must answer two out of seven questions.
2. Marks distribution: Experiment (20 marks, 10 for each) for practical tasks, Viva-Voce (5 marks) for oral assessment. Total: 25 marks.

List of Books:

Comer, D. E. (2018). *The internet book: Everything you need to know about computer networking and how the internet works* (5th ed.). Chapman and Hall/CRC Press.

Lambert, J., & Frye, C. (2015). *Microsoft office 2016 step by step*. Microsoft Press

Course Code	**212401**	**Marks:100**	**Credits: 4**	**Class Hours: 60**
Course Title	**Principles of Finance (In English)**			

Course Description:

Principles of Finance is an introductory course for the undergraduate students of the BBA program, which is designed to give an elementary idea about basic concepts of finance. This course carries **4 credits** and **60 hours** of effective teaching in 30 weeks. The course grades will be assessed through participation, class presentations, quiz, assignments, in course examination and comprehensive examinations.

Rationale:

This course is to acquaint students with the principles and with the financial operations of a business firm. This is an introductory course in finance. Course objective is to provide students with the basic knowledge in finance and to form the background for further related studies. Course presents students with an overview of financial concepts, terminology, and principles, introduces to the financial management methods applicable to the personal and business practices. Introduction to finance course combines theory with practical examples, using case discussions and simulations.

The course *Principles of Finance* designed to provide a basic understanding of finance to the students. The course is designed to build a strong foundation of financial arena among the students to help them to do better in the higher courses and also complete their under-graduation degree in finance and banking. This strong base, students from different disciplines will be able to perform accordingly in the following courses.

Course Objectives:

This course is aimed at introducing students to finance as a discipline, and to expose to the functions/duties of a financial manager in the business organization. Finance has evolved to assume a very important position in the decisional process of households, businesses, governments and other non-business organizations. In view of the fact that most business decisions are measured in financial terms, the financial manager plays a key role in the operation of the firm. People in all areas of responsibility and departments/units, such as: accounting, operations, marketing, human resources management, etc. need a basic understanding of the financial manager's functions.

The course emphasizes the understanding of finance theories and working knowledge of the financial environment in which firm operates in order to develop appropriate financial strategies. Hence, it covers the whole range of basic finance concepts, financial environment, short-term financing, intermediate-term financing, long-term financing and valuation, time value of money, risk and return, capital budgeting techniques, leverage and working capital management.

Course Learning Outcomes (CLOs):

The goal of the Principles of Finance course is for each student to develop an understanding of the basic financial principles, concepts of finance, various techniques, practices in businesses and the global market place. On the successful completion of this course, students are expected to:

1. Define and understand key concept of finance, financial manager, goals of a firm and functions of finance, career opportunity of finance, agency relationship, agency conflict and resolving agency conflict.
2. Understand financial environment, forms of business organization, various taxes as well as concept of financial market, financial intermediaries and brokers**;**

3. Explain and identify the sources of financing for a firm and usage of funds such as: short-term sources of financing;
4. Understand and select the intermediate-term sources of financing for a firm and usage of funds;
5. Know and use the long-term sources of financing and application of valuation models in case of common stock, preferred stock and bonds, and explain yield-to-maturity (YTM) on bonds;
6. Explain the time value of money, compute the future value, present value and the rate of return on an investment for projects that involve single or multiple cash flow(s) with the help of compounding and discounting techniques;
7. Understand the concepts of risk and returns and measures risk by applying various techniques to find out the risk and return trade-off for making a good investment decision;
8. Discuss capital and capital budgeting techniques simultaneously application of capital budgeting techniques to take financial decision about investment alternatives;
9. Clear concept of leverage, breakeven point and application types of leverage;
10. Explain the concept of working capital, operating cycle, cash conversion cycle, calculating the cash conversion cycle and inventory management, application of common techniques for managing inventory, accounts receivable management, credit selection and standards, credit terms, and credit monitoring.

Course Contents:

Chapter	Topic	Teaching Learning Strategy	CLOs
1.	**Introduction to Finance:** Concept of finance, Definition of finance, Financia manager, Definition of financial manager, Goals of a firm, Functions of finance, Agency issue, Agency problem, Agency cost and Role of finance in a firm.	Lecture, Tutorial, Assignment	CLO1
2.	**Financial Environment:** Sole proprietorship, Partnership, Corporation, Income tax, corporate tax, capital gain tax, Sales tax, VAT, Import duties, concept of Financial market, purpose of financial market, Types of financial market, Financial intermediaries and Brokers**.**	Lecture, Assignment, Tutorial, Group Discussion	CLO2
3.	**Short-Term Financing:** Characteristics and sources, spontaneous sources, unsecured and secured short term loan, Assignment and factoring of accounts receivables and inventory financing.	Lecture, Presentation, Group Discussion	CLO3
4.	**Intermediate-Term Financing:** Characteristics and sources, different methods, repayment method and	Lecture, Presentation,	CLO4

	effective interest calculation.	Group Discussion	
5.	**Long-Term Financing and Valuation:** Concept of common stock and Preferred stock, Characteristics of common stock and Preferred stock, Meaning of bond, Characteristics of bond, Classification of bonds, Bond indenture, Call provision, Sinking fund, Valuation of common stock, Valuation of preferred stock, Yield to maturity, Basic bond valuation model and Equation (numerical) solution.	Lecture, Presentation, Assignment	CLO5
6.	**Time value of Money**: Concept of time value of money, Time line, Annuity, Types of annuity, Cash flow, Types of cash flow, Present value, Future value, Perpetual annuity, Rule of 72 and Rule of 69, Simple interest rate, Compounding interest rate, Amortization, and some mathematical application on Time value of money.	Lecture, Presentation, Tutorial, Group Discussion	CLO6
7.	**Risk and Return**: Meaning of Risk, Rate of return and Expected value, Risk premium, Types of risk, Total risk, Corporate risk, Systematic risk and Unsystematic risk, Measuring risk: Probability distribution, Standard Deviation (S.D) and Coefficient of Variation (C.V) and some mathematical application on S.D and C.V.	Lecture, Presentation, Group Discussion, Assignment	CLO7
8.	**Capital Budgeting Techniques**: Meaning of Capital, capital budgeting, capital budget, Motives for Capital Expenditure, Types of Investment decision, Steps in capital budgeting, Techniques of capital budgeting: Payback Period Method, Average Rate of Return, NPV, IRR, Profitability Index Method and Capital Rationing, and Comparing NPV and IRR.	Lecture, Presentation, Group Discussion	CLO8
9.	**Leverage:** Meaning of leverage, Types of leverage: Operating leverage, Financial leverage, Combined or Total leverage, Breakeven point, Degree of operating leverage (DOL), Degree of financial leverage (DFL), Degree of combined or Total leverage (DCL or DTL) and some mathematical application of leverage.	Lecture, Presentation, Group Discussion	CLO9
10.	**Working Capital Management:** Working capital management, Net working capital, Trade-off between profitability and risk, Operating cycle, Cash	Lecture, Presentation, Group	CLO10

	conversion cycle: Calculating the cash conversion cycle, Funding requirements of the cash conversion cycle, Strategies for managing the cash conversion cycle, Inventory management: Differing viewpoints about inventory level, Common techniques for managing inventory, Accounts receivable management: Credit selection and standards, Credit terms, Credit monitoring, Management of receipts and disbursement: Float, Speeding up collections and Slowing down payments.	Discussion

Course Title:	**Introduction to Business**			

Course Description:

Introduction to business is an introductory course for the undergraduate students of the BBA program, which is designed to give an elementary idea about business. This course carries **4 credits** and **60 hours** of effective teaching in 30 weeks. The course grades will be assessed through participation, class presentations, quiz, assignments, in course examination and comprehensive examinations.

Rationale:
The course *Introduction to Business* is designed to provide a basic understanding of business, management to the students. The course is designed to build a strong foundation of business arena among the students to help them to do better in the higher courses and also complete their under-graduation degree in finance and banking. This strong base, students from different disciplines will be able to perform accordingly in the following courses.

Course Objectives:
The principal objective of this course is to convey the fundamental knowledge of business to students. The specific objectives of this course are to:

1) have a complete idea of business in a holistic manner;
2) be familiar with all of the characteristics and factors of business, as well as the economic environments in which they operate;
3) be able to apply what you've learned in real-world situations;
4) use examples from current events, as well as more formal case studies, to apply, illustrate, and discuss different aspects of business.

Course Learning Outcomes:
On satisfying the requirements and successful completion of this course, students will have the knowledge and skills to:

CLO 1: identify the related environments of business and economic systems, international business, social responsibility, and business ethics.

CLO 2: recognize the different forms of business organizational structure, entrepreneurship, small business, business operations, and marketing concepts.

CLO 3: explain start process and identify financial Institutions in Bangladesh

Course Contents:

Chapter	Topic	Teaching Learning Strategy	CLOs
1.	**Concepts in Business:** Meaning and Definition of Business, Functions, Characteristics and Nature of Business, Components of Business, Pre-Requisites of Business-Owner of a business, The Payoff of Business ownership, The Winning hand of Ownership, Characteristics of successful Business Owner, Form of Business Ownership in Bangladesh, One Person Company.	Lecture, Assignment	CLO1

2.	**Sole Proprietorship:** Meaning and Definition, Characteristics and Nature of Sole Proprietorship, Advantages and Disadvantages, Formation of Sole Proprietorship.	Lecture, Tutorial, Group Discussion	CLO2
3.	**Partnership:** Meaning and Definition, Characteristics and Nature of Sole Proprietorship, Advantages and Disadvantages, Kinds of Partners and Partnership, Partnership Agreement, Provision of Partnership Deed, Rights and Duties of Partners, Liabilities of Partners, Formation of partnership, Dissolution of Partnership Firm.	Lecture, Presentation, Assignment	CLO3
4.	**Joint Stock Companies (JSC):** Meaning and Definition-Characteristics and Features of JSC, Advantages and Disadvantages of JSC, Public Vs. Private Limited Company, Formation of a JSC in Bangladesh, Legal Documents Issued by A Company: Memorandum, Articles, Prospectus, Company Meeting: Shareholders' Meetings, Directors' Meeting, Share Capital, Winding up of Company, Public Limited Company (PLC)	Lecture, Presentation, Assignment	CLO4
5.	**Cooperative Society:** Meaning and Definition, Principles and Characteristics of Cooperative, Advantages and Disadvantages of Cooperative, Types of Cooperative Society, Formation of Cooperative Society in Bangladesh, Winding up of Cooperative Society.	Lecture, Presentation, Assignment	CLO5
6.	**State Enterprises:** Meaning and Definition, Historical Background of State Enterprises, Importance, Successes and Failures of State Enterprises, Proposals for Improvement.	Lecture, Tutorial, Group Discussion	CLO6
7.	**Franchising:** Meaning and Definition, Factors influencing Franchising, Types of Franchising Agreement. Pros and cons of franchising.	Lecture, Assignment, Quiz	CLO7
8.	**Business Start-Up:** Identifying Startup Ideas, Creating a New Business from Search, Finding Startup Ideas, Using Internal and External Analysis to evaluate and opportunity, Selecting Strategies that capture opportunities.	Lecture, Tutorial, Assignment, Quiz	CLO8
9.	**Financial Markets and Institutions in Bangladesh:** Bank, Non-banking Financial Institutions, Micro Finance Institute, Insurance, Stock Exchanges.	Lecture, Assignment, Class Test	CLO9

Course Code	**212405**	**Marks:100**	**Credits: 4**	**Class Hours: 60**
Course Title:	**Business Communication (In English)**			

Course Description:

Business Communication is an elective course for the undergraduate students of the BBA program of finance and banking department, which carries 4 credits and 60 hours of effective teaching in 30 weeks. The course grades will be assessed through participation, class presentations, quiz, assignments, in course examination and comprehensive examinations.

Rationale:

Communication is essential in business as in other spheres of life. In every business activity it requires human beings to interact and react, that is to communicate. Communication acts as a basis of information to the whole organization. Business communication is a fundamental course for business graduates around the world. It is necessary to understand the concept of formal and informal communication in the workplace. It is through communication that any organization becomes an open system interacting with its environment. The course may enrich students' knowledge about different types of communication and uses in different situations.

Course Objectives:

The principal objective of this course is to convey the fundamental knowledge of business communication to students.

The specific objectives of this course are to:

1) To understand different aspects/mechanism of communication.
2) To understand its scope and importance in business, and the role of communication and communication principles.
3) To know what the most common barriers to successful business communication are and how they can be overcome.
4) To learn the effective ways of communication and methods of communication.
5) To develop the student's capability of writing English competently, accurately and appropriately in variety of managerial communication scenarios.
6) To apply communication skills as a foundation for personal development as well as achieve better result and attain organizational goal through effective communication.

Course Learning Outcomes (CLOs):
On satisfying the requirements and successful completion of this course, students will have the knowledge and skills to:
CLO 1: Understand effective ways of communication and its scope and importance in business, and the role of communication.
CLO2: Demonstrate critical and innovative thinking and increase competence in oral, written, and visual communication.
CLO3: Demonstrate critical and innovative thinking and increase competence in oral, written, and visual communication.
CLO4: Identify the opportunities in the field of communication.
CLO 5: Apply ideas accurately in written and spoken formats through English language proficiency.

Course Contents:

Chapter	Topic	Teaching Learning Strategy	CLOs
1.	**Introduction to Communication:** Definition of Communication, Scope, process, steps, functions, importance and models of communication.	Lecture, Tutorial, Assignment	CLO1
2.	**Classification & Methods of Communication:** Horizontal and Vertical Communication, upward and downward communication, Formal and informal communication, mass communication, Grapevine: How the grapevine operates, importance & limitations of grapevine, how to use the grapevine effectively, barriers to communication, communication problems in Bangladesh.	Lecture, Assignment, Tutorial, Group Discussion	CLO2
3.	**Media of communication:** Oral communication, purpose, Merits & limitation, written communication, Aerial communication, visual and audio visual	Lecture, Presentation, Presentation	CLO3

	communication, two-way and one way communication, Gesture, Nods, Body language, Face to face conversation, Interviews, Meeting. Telephonic conversation, limitations, Dos and Don'ts in oral communication.		
4.	**Principles of Effective communication:** The seven C's of Effective communication, Completeness, Conciseness, Consideration, Concreteness, Clarity, Courtesy, Correctness	Lecture, Presentation, Group Discussion	CLO4
5.	**Effective Meeting:** Preparation, Conduction, strategy and follow up-Agenda Minutes-Effective versus Ineffective groups.	Lecture, Presentation, Assignment	CLO5
6.	**Technology and Business Communication:** Role, Effects and Advantages of Technology in Business Communication e.g. Email, Text Messaging, Instant Messaging and Modern Techniques Like, Video Conferencing, Social Networking. Strategic Importance of E-Communication, Goggle workplace.	Lecture, Presentation, Tutorial, Group Discussion	CLO6
7.	**Communication through Letters:** Application and resumes, Cover letter, employment letter, interviews and joining, Resignation letter, Inquiry letter, Reply to Inquiry letter, order letter, complaint letter, Collection letter, claim letter, regret and apology letter.	Lecture, Presentation, Group Discussion, Assignment,	CLO7
8.	**Communication through memorandum and reports:** Types of reports, purpose, Determining the factors, Gathering the information needed, Interpreting the findings, Writing the report, scope and preparation of reports, pattern of report, forms of shorter report and the longer report, The long analytical report, memorandum-meaning, functions, Importance, uses, procedures of writing memorandum.	Lecture, Presentation, Group Discussion	CLO8
9.	**Report Writing:** Identify the Types of Reports, Define the Basic Format of a Report, Identify the Steps of Report Writing, Write a Report Meeting the Format Requirements, Determine the Process of Writing a Report, Importance of Including Visuals such as Tables, Diagrams and Charts in Writing Report, Apply Citation Rules (APA Style Documentation) in Reports	Lecture, Presentation, Group Discussion	CLO9

Course Code	**212407**	**Marks:100**	**Credits: 4**	**Class Hours: 60**
Course Title:	**Principles of Accounting (In English)**			

Course Description:

A principle of Accounting is an introductory course for the undergraduate students of the BBA program, which is designed to give an elementary idea about accounting. This course carries **4 credits** and **60 hours** of effective teaching in 30 weeks. The course grades will be assessed through participation, class presentations, quiz, assignments, in course examination and comprehensive examinations.

Rationale:

The course *Principles of Accounting* designed to provide a basic understanding of accounting to the students. The course is designed to build a strong foundation of accounting arena among the students to help them to do better in the higher courses and also complete their under-graduation degree in finance and banking. This strong base, students from different disciplines will be able to perform accordingly in the following courses.

Course Objectives:

The principal objective of this course is to convey the fundamental knowledge of accounting to students. The specific objectives of this course are to:

1) To familiarize students with the basic concepts and principles of accounting and their application in real-life business and management.
2) To provide an overview of accounting record-keeping and statement preparation practices following International Accounting Standards.
3) To develop basic analytical abilities using accounting information for managerial decision making.
4) To solve various problems, as well as more formal case studies, to apply, illustrate, and discuss different aspects of accounting.

Course Learning Outcomes (CLOs):
On satisfying the requirements and successful completion of this course, students will have the knowledge and skills to:

CLO 1: Explain the historical development, purpose, and nature of accounting information, including the role of accounting principles and professional standards (e.g., GAAP).

CLO 2: Apply the accounting equation to analyze the impact of financial transactions on the financial position of a business.

CLO 3: Record business transactions accurately using appropriate source documents, journals, and ledgers.

CLO4: Prepare a trial balance and identify errors that are and are not disclosed by it.

CLO 5: Apply accounting procedures for merchandising operations, including inventory systems and invoice processing.

CLO 6: Perform the adjusting and closing processes, including the preparation and use of a worksheet.

CLO 7: Prepare and interpret basic financial statements, including an income statement and a classified statement of financial position (balance sheet).

CLO 8: Apply accounting principles in recording and managing different types of assets such as cash, receivables, and fixed assets.

CLO 9: Account for various types of liabilities and owner's equity in accordance with standard financial reporting practices.

Course Contents:

Chapter	Topic	Teaching Learning Strategy	CLOs

1.	**Introduction to Accounting:** Background of Accounting Development, Definition, Purpose and Nature of Accounting Information, The Work of Accountants, Branches of Accounting, The Need for Accounting Concepts and Principles, Professional Associations and Accounting Principles, Generally Accepted Accounting Principles (GAAP), Accounting equation.	Lecture, Assignment, Presentation	CLO1
2.	**Financial Accounting Process:** Understanding the accounting equation, understanding financial transaction and their effect on financial position.	Lecture, Tutorial, Group Discussion	CLO2
3.	**Processing Accounting Data:** Understanding accounting statements, Various kinds of vouchers, the process of recording business transactions, the need for a journal, Journalizing business transactions, Various kinds of journals.	Presentation, Assignment	CLO3
4.	**The Ledger:** Concept, need for ledger, Posting mechanism, Accounts and their branches.	Lecture, Assignment	CLO4
5.	**The Trial Balance:** Understanding trial balance, Trial balance & accounting accuracy, Preparation of trial balance, Errors not detected by trial balance.	Lecture, Presentation, Assignment	CLO5
6.	**Accounting for Merchandising Operations:** Invoices, Perpetual and periodic systems, Accounting for inventories.	Lecture, Tutorial, Group Discussion	CLO6
7.	**Financial Statements:** Understanding financial statements, Purpose and interrelationship of the Financial Statement, Importance, Limitations & Preparation of Financial Statements, Supplementary Statements/Schedules, Preparation of Financial Statements for Sole-proprietorship Organizations, Preparation of classified income statement and statement of financial position (balance sheet).	Lecture, Assignment	CLO7
8.	**Financial Statement Analysis:** Horizontal analysis and vertical analysis of comparative financial statements, Preparation and use of common-size financial statements, Ratio Analysis-Basic Ratios of Liquidity, Activity, Profitability, and Solvency.	Lecture, Tutorial, Assignment	CLO8
9.	**Accounting for Assets:** Accounting for cash, Accounting for receivables, Accounting for fixed assets.	Lecture, Assignment	CLO9

10.	**Accounting for Liabilities:** Accounting for short-term and long-term liabilities, Accounting for owners' equity.	Lecture, Assignment	CLO10

Course Code	**212409**	**Marks:100**	**Credits: 4**	**Class Hours: 60**
Course Title:	**Business Mathematics**			

Course Description:

Business Mathematics is an elementary course for the undergraduate students of the BBA (Honors) program of the finance and banking department of National University, Bangladesh which carries **4 credits** and **60 hours** of effective teaching in 30 weeks. The course grades will be assessed through participation, class presentations, quiz, assignments, in course examination and comprehensive examinations.

Rationale:

This course will help to review the fundamental mathematical skills such as algebra and other mathematical techniques is urgent and essential in order to solve quantitative problems encountered in business. The rationale of this course is to develop quantitative skills, which help students to extract analytical models from theoretical and empirical studies.

Course Objectives:

The purpose of this course is to provide students with basic mathematic skills useful in solving real-life business problems. The course involves concept understanding, problem formulation and solution, quantifying and graphing application in the areas of business mathematics. Specifically, students are to use a teamwork approach, applying mathematical tools to obtain quantitative information that is relevant to business decisions. Hence, the primary objective of Business Mathematics is to prepare students for subsequent work in the Business College and for their future careers in business. For this reason, all aspects or the program follows business practices and use common tools of the business world.

Course Learning Outcomes (CLOs):

On satisfying the requirements and successful completion of this course, students will have the knowledge and skills to:

CLO 1: Develop the prerequisite knowledge and mathematical skills necessary to undertake higher level courses which have a quantitative focus.

CLO 2: Develop knowledge about number system, sets and multiplication problems.

CLO 3: Analyze logarithmic equations, indices and surds, Matrices and determinants and apply into real world problems. Solve business math problems using equations.

CLO 4: Solve problems regarding permutation counting; apply Straight Lines, Mathematics of Finance, permutations and combinations to business problems.

Course Contents:

Chapter	Topic	Teaching Learning Strategy	CLOs
1.	**Number System:** Introduction, Real Number Systems, Absolute Value of a Number, Special Properties of Zero. Fractions, Complex and Imaginary Number, Sequence and Series, Sigma Notation, Principles of Mathematical Indication, Sum of Natural Number, Relations and Functions, Business Application.	Lecture, Tutorial, Assignment	CLO1
2.	**Indices and Logarithms:** Introduction, Index and Base of a Number, Law of Indices, Meaning of a^m Positive and Fractional Indices, Operation with Power Functions. Logarithm, Anti-Logarithm, Laws of Logarithms, Common Logarithm, Natural Logarithm, Characteristics and Mantissa.	Lecture, Assignment, Tutorial, Group Discussion	CLO2
3.	**Theory of Sets:** Definition of a Set, Methods of Describing a Set, Types of Sets, Operation on Sets,	Lecture, Presentation,	CLO3

	Venn Diagram, De-Morgan's Laws, Cartesian Product of Two Sets, Business Applications.	Quiz	
4.	**Linear and Quadratic Equations:** *Liner Equations:* Equation and Identity, Linear Equations, Degree of an Equation, Solution of an Equation, Linear Simultaneous Equations with Two Variables, Linear Inequalities, Business Applications. *Quadratic Equations*: Nature of the roots of a Quadratic Equation, Relationship between Roots and Coefficients of a Quadratic Equation, Formation of Quadratic Equation with Given Roots. Business Application.	Lecture, Presentation, Group Discussion, Tutorial	CLO4
5.	**The Straight Lines:** Abscissa and Ordinate of a Point, Rectangular Coordinates, Distance Between Two Points, Coordinates of Mid-Point, Division or Section Formula, Centroid of a Triangle, Area of a Triangle, Polar Coordinates, Relation between Polar and Cartesian Coordinates of a Point, Straight Line and Standard from of Its Equations, General Equation of a Straight Line, Intersection of Two Straight Lines, Condition for Concurrent of the Three Straight Lines, Angle between Two Straight Lines, Equation of a straight line passing through two points, Cost equation, Business Applications.	Lecture, Presentation, Assignment Class Test	CLO4
6.	**Permutations and Combinations:** Fundamental Principles of Permutations, Permutations of Things which are and are not All Different, Circular Permutations. Combinations, Relations, Relation between Permutation and Combination, Business Applications.	Lecture, Presentation, Tutorial, Group Discussion	CLO4
7.	**Mathematics of Finance:** Interest, Simple Interest, Compound Interest, Nominal and Effective Rates of Interest, Continuous Compounding, Discounting, Depreciation, Annuity, Derivation of Different Types of Annuity, Amortization and Sinking Funds, Business Applications.	Lecture, Presentation, Group Discussion, Assignment	CLO4
8.	**Matrices and Determinants:** Definition of a Matrix, Types of Matrices, Algebra of Matrices, Inverse of a Square Matrix, Solving System of Linear Equations by Matrix Method, Determinants of a Square Matrix, Cramer's Rule to Solve System of Linear Equations.	Lecture, Presentation, Group Discussion	CLO4

Course Code	**212411**	**Marks:100**	**Credits: 4**	**Class Hours: 60**
Course Title:	**Microeconomics**			

Course Description:

Microeconomics is a core course for the undergraduate students of the BBA program under finance and banking department, which carries **4 credits** and **60 hours** of effective teaching in **30** weeks. The course grades will be assessed through participation, group discussion, class presentations, quiz, assignments, in course examination and comprehensive examinations. This is an elementary-level course for applying the economics concept in the field of business.

Rationale:

Today microeconomics occupies a very important place in the study of economic theory. It is an important method of economic analysis, which Professor Keynes regards as "a necessary part of one's apparatus of thought. It is microeconomics that tells us how a free market economy with its millions of consumers and producers work to decide about the allocation of productive resources among the thousands of goods and services.

Course Objectives:

The purpose of this course is to provide you with a basic understanding of the microeconomics. At its core, the study of economics deals with the choices and decisions that have to be made in order to manage scarce resources available to us. Microeconomics is the branch of economics that pertains to decisions made at the individual level, i.e. by individual consumers or individual firms, after evaluating resources, costs, and tradeoffs. When we talk about "the economy," then, we are referring to the marketplace or system in which these choices interact with one another. In this course, we will learn how and why these decisions

are made and how they affect one another in the economy. Each of the following units has been designed as a building block, where the concepts you learn in one unit will enable you to understand the material you discover in the next. By the end of this course, you will have a strong grasp on the major issues that face micro economists, including consumer and producer behavior, the nature of supply and demand, the different kinds of markets and how they function, and the welfare outcomes of consumers and producers. You will also be able to apply the formal principles you learn to real world issues.

Course Learning Outcomes (CLOs):

CLO 1: Understand how households (demand) and businesses (supply) interact in various market structures to determine price and quantity of a good produced.

CLO2: Represent demand, in graphical form, including the downward slope of the demand curve and what shifts the demand curve.

CLO3: Understand the links between production costs and the economic models of supply, represent supply, in graphical form, including the upward slope of the supply curve and what shifts the supply curve.

CLO 4: Understand the efficiency and equity implications of market interference, including government policy.

CLO5: Understand how different degrees of competition in a market affect pricing and output and apply economic reasoning to individual and firm behavior.

Course Contents:

Chapter	Topic	Teaching Learning Strategy	CLOs
1.	**The Concepts of Economics:** Why Study Economics? The Three Problem of Economic Organization, Society's Technological Possibilities	Lecture, Assignment	
2.	**The Modern Mixed Economy:** The Market Mechanism, Trade, Money, and Capital, The Visible Hand of Government	Lecture, Tutorial, Group Discussion, Final Examination	
3.	**Basic Elements of Supply and Demand:** The Demand Schedule, The Supply Schedule, Equilibrium of Supply and Demand	Presentation, Mid-term	
4.	**Supply and Demand: Elasticity and Applications:** Price Elasticity of Demand and Supply, Applications to Major Economic Issues, Demand and Consumer	Lecture, Assignment	

	Behavior.		
5.	**Production and Business Organization:** Theory of Production and Marginal Products, Business Organizations	Lecture, Tutorial, Group Discussion	
6.	**Analysis and costs:** Economic Analysis of Costs, Economic Costs and Business Accounting, Opportunity Costs	Lecture, Assignment, Presentation	
7.	**Analysis of Perfectly Competitive Markets:** Supply Behavior of the Competitive Firm, Supply Behavior in Competitive Industries, Special Cases of Competitive Markets, Efficiency and Equity of Competitive Markets	Lecture, Tutorial, Assignment, Quiz	
8.	**Imperfect Competition and Monopoly:** Patterns of Imperfect Competition, Monopoly Behavior	Lecture, Assignment	
9.	**Competition Among The Few:** Behavior of Imperfect Competitors, Game Theory, Public Policies to Combat Market Power	Lecture, Assignment	
10.	**The Labor Market:** Fundamentals of Wage Determination, Labor Market Issues and Policies	Lecture, Assignment	
11.	**Government Taxation and Expenditure:** Government Control of the Economy, Government Expenditures, Economic Aspects of Taxation	Lecture, Assignment
