NATIONAL UNIVERSITY BANGLADESH

PROVISIONAL

Syllabus
Bachelor of Business Administration (BBA) Second Year
Department of Marketing

Effective from the Academic Year: 2024-2025 and onward

Vision of the University

We expect that the hundredth anniversary of the National University, our commitment to "Progress for Everyone" will be evident in all areas of our operations and stakeholder engagements.

We leverage our core strength in education, research, and community engagement to address pressing global issues and foster sustainable development. By 2042, National University aims to strengthen its positions as Bangladesh's top academic institution and rank among the world's leading universities. Our focus will be on expanding expertise building strategic partnerships, and increasing our global influence. Our services will be measured by the achievements of the individuals and communities we serve.

Mission of the University

To promote "Progress for Everyone" by fostering transformative education, conducting pioneering research, and encouraging meaningful collaboration with individuals, communities, and partners both in Bangladesh and around the world.

Name of the Degree: BBA in Marketing

Vision of the Program

The vision of the program is to develop human capital who has intelligence with a realistic business climate through business skills, unique talents, soft skills, educational and practical experience, digital and technological literacy and a strong sense of ethical and social responsibility to take the challenges of 21st century workplace.

Mission of the Program

To meet its vision, the program sets its mission to-

M-1	Provide an in-depth knowledge among the graduates in the different areas of Business Management through teaching and learning that is rigorous, relevant and at the digital and technological edge.
M-2	Encourage creativity and innovation among the graduates to develop problem-solving skill and ability to adopt business and technological changes at the 21st century workplace.
M-3	Provide a learning and sharing culture for the learners that enable them to maximize their career potential.
M-4	Enable learners to operate own business through entrepreneurial skills with strong ethical and social responsibility.
M-5	Develop human capital by addressing sustainability issues and managing business technology in the 21st Century workplace i.e. AI, Automation, Digitalization etc.

Objectives of the Program

- To provide teaching-learning activities with resource materials and tools to help the learners to be involved in deep learning process in the different branches of Business through imparting theoretical and practical knowledge.
- To equip learners with adequate tools of analysis to face real life challenges in the field of Business.
- To enable learners apply their knowledge and skills towards specific solution of each problems in the different branches of Business.
- To develop learners with social skills that will enable them to generate synergetic outcomes.

BNQF Qualifications

The BBA (Honours) program is designed to meet the standards of the Bangladesh National Qualifications Framework (BNQF) at Level 7. The curriculum, learning outcomes, and assessment strategies are aligned to ensure graduates demonstrate the advanced knowledge, skills, and responsibility expected of a Bachelor's degree holder as defined by the BNQF.

PROVISIONAL

Graduate Attributes (based on need assessment)

National University, Bangladesh is committed to lead through providing effective teaching& learning, culturally enriched educational experience that will transform the lives of its learners. Aspiration of the university is to produce graduate through developing knowledge, skill and attitudes (KSA) to equip them to promote growth and welfare of the rapidly changing world. In addition, to their subject specific expertise (Mastery of Subject related theoretical and practical Knowledge/conceptual skills) the university graduates will have the following attributes:

- Critical thinking, creativity, innovation and Entrepreneurial
- Leadership, Organizing, Analytical, Problem-solving, Negotiation and Decision making
- Technical, ICT and Digital Literacy
- Communication and Language (English) Proficiency and soft skills
- Social, Collaboration, Adaptation/ Flexibility Skills

Program Educational Objectives (PEOs)

PEOs are broad goals that describe what graduates are expected to achieve within a few years (typically 4 years) after completing the program. These reflect career and professional accomplishments.

PE0-1	Produces skilled business graduates by developing learners' theoretical and practical knowledge and managerial abilities in the field of marketing.
PE0-2	Develop learners' skills toward meeting the demand of 21st century complex workplace that will enhance employability.
PE0-3	Offer students contemporary academic contents through activity-based classroom that will ensure graduate competencies in the market-place.
PE0-4	Develop innovation capabilities among the graduates that will promote entrepreneurship as a profession.
PE0-5	Develop professional and ethical responsibilities among graduates which will help them to ensure sustainability in business practices.
PE0-6	Develop learners' meta cognitive skills and emotional intelligence, that enable them as effective thinkers in the competitive business landscape.
PE0-7	Produce technologically skilled graduates in the field of marketing that will make them as distinct human capital in the competitive market.
PE0-8	Develop research skills among the graduates so that they can engage in innovation collaborating international communities

Program Learning Outcomes (PLOs)

PLOs are specific, measurable skills or knowledge that students are expected to have by the time they graduate. These outcomes align with national or international qualification frameworks.

PLO-1	Deal with the business problems in real life by applying the knowledge of marketing.
PLO-2	Analyze and interpret complex data for decisions-making.
PLO-3	Create new venture through entrepreneurial skills for the advancement of socio-economic development.
PLO-4	Deal with the global business practices and cross-cultural management.
PLO-5	Demonstrate strong knowledge of the different areas of Marketing through applying managerial and leadership capabilities in diverse business environments.
PLO-6	Analyze and interpret both the customer and consumer experiences to design marketing plan for both the traditional and digital market.
PLO-7	Demonstrate a comprehensive understanding of social responsibility and use ethical frameworks to make informed and responsible business decisions.
PLO-8	Develop strong foundation in business administrations for addressing real life challenges.

PROVISIONAL

PEO - University Mission Alignment Matrix

The Program Educational Objectives (PEOs) of the BBA (Honours) program are meticulously aligned with the University's mission to promote 'Progress for Everyone.' Through a curriculum that delivers transformative education, fosters pioneering research and inquiry, and emphasizes meaningful collaboration and ethical leadership, the program ensures that graduates are equipped to make substantial, positive contributions to Bangladesh and the global community.

PEO	Program Educational Objective	Primary Mission	Secondary Mission	Tertiary Mission
PEO-1	Produces skilled business graduates by developing learners' theoretical and practical knowledge and managerial abilities in the field of marketing.	**Transformative Education**	**Progress for Everyone**	—
PEO-2	Develops learners' skills toward meeting the demands of the 21st-century complex workplace and enhancing employability.	**Progress for Everyone**	**Transformative Education**	—
PEO-3	Offers students contemporary academic content through activity-based classrooms to ensure graduate competencies in the marketplace.	**Transformative Education**	**Progress for Everyone**	—
PEO-4	Develops innovation capabilities among graduates that promote entrepreneurship as a profession.	**Transformative Education**	**Progress for Everyone**	**Pioneering Research**
PEO-5	Develops professional and ethical responsibilities among graduates to ensure sustainability in business practices.	**Progress for Everyone**	**Transformative Education**	**Meaningful Collaboration**
PEO-6	Develops learners' metacognitive skills and emotional intelligence, enabling them to become effective thinkers in the competitive business landscape.	**Transformative Education**	**Progress for Everyone**	—
PEO-7	Produces technologically skilled graduates in marketing who can become distinctive human capital in the competitive market.	**Transformative Education**	**Progress for Everyone**	**Pioneering Research**
PEO-8	Develops research skills among graduates so that they can engage in innovation and collaborate with international communities.	**Pioneering Research**	**Meaningful Collaboration**	**Transformative Education**

Detailed Syllabus

Course Code: 8222351	**Marks:100**	**Credits: 4**	**Class Hours: 56**
Course Title: Macroeconomics			

Course Description	Macroeconomics is a core business course that examines the behavior and performance of the economy as a whole. The course focuses on national income determination, inflation, unemployment, monetary and fiscal policies, economic growth, international trade, and exchange rate systems. It enables students to understand how macroeconomic forces influence business decisions, public policy, and overall economic development in both domestic and global contexts.
Rationale	Understanding macroeconomic principles is essential for business managers, policymakers, and entrepreneurs operating in an increasingly interconnected global economy. This course equips students with the analytical tools needed to interpret economic indicators, evaluate government policies, assess business risks, and make informed strategic decisions in changing economic environments.
Course Objectives	1. Develop an understanding of macroeconomic concepts, theories, and national income accounting. 2. Analyze the determinants of aggregate output, employment, inflation, and economic growth. 3. Evaluate the roles of monetary and fiscal policies in stabilizing the economy. 4. Examine international trade, exchange rates, and global economic issues affecting business. 5. Apply macroeconomic concepts to contemporary economic challenges and business decision-making
Course Learning Outcomes (CLOs)	Upon successful completion of the course a student will be able to:

CLO-1	Explain the fundamental concepts, theories, and indicators of macroeconomics.
CLO-2	Analyze national income, unemployment, inflation, and business cycle fluctuations using macroeconomic models.
CLO-3	Evaluate the effectiveness of fiscal and monetary policies in achieving macroeconomic stability.
CLO-4	Assess international macroeconomic issues, including trade, exchange rates, and balance of payments.
CLO-5	Recommend appropriate macroeconomic policy responses to contemporary economic challenges.

Course Contents

	Course Contents	**Teaching Methods**	**CLOs**
1	**Introduction to Macroeconomics:** Nature and scope of macroeconomics, key macroeconomic variables, circular flow of income, economic systems.	Interactive Lecture	CLO-1
2	**National Income Accounting:** GDP, GNP, NNP, national income measurement, income and expenditure approaches, limitations of national income accounting.	Interactive Lecture	CLO-1, CLO-2
3	**Aggregate Demand and Aggregate Supply:** Aggregate demand, aggregate supply, equilibrium output, multiplier effect, business cycles.	Case Study	CLO-2
4	**Consumption, Saving and Investment:** Consumption function, saving function, investment function, Keynesian equilibrium.	Problem Solving	CLO-2
5	**Money and Banking:** Functions of money, money supply, commercial banking, central banking, money creation, monetary policy instruments.	Group Discussion	CLO-2, CLO-3

PROVISIONAL

Summative Assessment **In course Examination** *(The assessment will be conducted by the concerned college)*

Course Title: Principles of Accounting (In English)

Course Description	Principles of Accounting is a foundational business course that introduces students to the concepts, principles, and practices of accounting. The course focuses on the accounting cycle, recording and classification of business transactions, preparation of financial statements, and interpretation of accounting information. It covers fundamental accounting concepts, journalizing, ledger posting, trial balance, adjustments, preparation of financial statements, and basic accounting for different forms of business organizations. The course enables students to understand how accounting information supports business operations, financial reporting, and managerial decision-making.
Rationale	Understanding accounting is essential for students of business and management because accounting information provides the basis for evaluating the financial performance and position of an organization. This course equips students with the fundamental knowledge and practical skills required to record business transactions, prepare and understand financial statements, identify the effects of business activities on financial position, and use accounting information for informed business decisions. It also provides a foundation for advanced courses in financial accounting, management accounting, financial management, and auditing.
Course Objectives	Upon completion of the course, students will be able to: 1. Develop a clear understanding of the fundamental concepts, principles, assumptions, and terminology of accounting. 2. Explain and apply the accounting equation and the double-entry system in recording business transactions. 3. Develop practical skills in journalizing transactions, posting to ledgers, preparing trial balances, and making necessary adjustments. 4. Prepare basic financial statements and interpret accounting information to assess the financial performance and position of a business. 5. Apply fundamental accounting knowledge to business transactions and financial decision-making in different organizational contexts.
Course Learning Outcomes (CLOs)	Upon successful completion of the course a student will be able to:

CLO-1	Explain the fundamental concepts, principles, assumptions, terminology, and objectives of accounting.
CLO-2	Apply the accounting equation and double-entry bookkeeping system to record and classify business transactions.
CLO-3	Prepare journals, ledgers, trial balances, and adjusting entries as part of the accounting cycle.
CLO-4	Prepare and interpret basic financial statements, including the income statement, statement of owner's equity, and balance sheet/statement of financial position.
CLO-5	Analyze accounting information and apply fundamental accounting principles to support business and financial decision-making.

Course Title: Business Laws and Ethics

Course Description	Business Laws and Ethics introduces students to the legal and ethical environment within which business organizations operate in Bangladesh. The course develops an understanding of major business laws governing contracts, sale of goods, negotiable instruments, arbitration, labour relations, environmental protection, banking, financial institutions, insurance, intellectual property, and securities regulation. It also examines the rights, duties, liabilities, and responsibilities of individuals and business organizations under relevant laws.
Rationale	Business Law and Ethics is essential for developing an understanding of the legal principles and ethical standards that guide business activities. The course helps students understand their legal rights and responsibilities, make ethical decisions, and recognize the consequences of unlawful or unethical practices. It also promotes corporate responsibility, fairness, transparency, and accountability, enabling students to conduct business responsibly in a complex and competitive environment.
Course Objectives	1. To familiarize students with the structure of the Bangladeshi legal system and the statutes most relevant to business operations. 2. To develop the ability to apply legal principles to real business scenarios. 3. To build critical awareness of contemporary ethical issues- digital privacy, AI, fintech in the Bangladeshi and global context. 4. To cultivate professional judgment, written analysis, and oral advocacy skills through case-based and problem-based learning.
Course Learning Outcomes (CLOs)	Upon successful completion of the course a student will be able to:

CLOs	Detail	Bloom Level
CLO-1	Explain the legal environment of business and the role of law in regulating business activities, protecting stakeholders, and guiding business decisions.	Understand
CLO-2	Apply the principles of contract, sale of goods, negotiable instruments, arbitration, labour, environmental, banking, financial institution, insurance, and intellectual property laws to business situations.	Apply
CLO-3	Analyze legal provisions relating to securities, stock exchanges, corporate regulation, and other regulatory requirements and their implications for business organizations.	Analyze
CLO-4	Analyze business-related legal cases and identify the rights, duties, obligations, liabilities, and remedies of relevant parties.	Analyze
CLO-5	Evaluate business decisions using ethical theories and principles, including utilitarianism, rights and duties, justice, fairness, and moral reasoning.	Evaluate
CLO-6	Develop legally compliant and ethically responsible solutions to contemporary business problems involving digital technology, data privacy, AI, fintech, MFS, platform work, leadership, and organizational compliance.	Create

Course Title: Agricultural Marketing: Theory and Practice

Course Description

Agricultural and Food Marketing provides a comprehensive understanding of the principles, functions, processes and practices of agricultural and food marketing. It covers agricultural and food marketing systems, market structure, consumer behavior, market segmentation, marketing functions, grading and standardization, pricing, distribution, promotion, digital marketing, packaging, food quality and safety, value addition, and sustainable marketing practices. The course also examines major problems and challenges of agricultural marketing in Bangladesh and explores practical solutions. Emphasis is placed on developing students' analytical, entrepreneurial and decision-making skills through practical examples, field observation, farm visits and report writing. The course enables students to apply marketing concepts and tools in real-world agricultural and food marketing situations.

Rationale

Agricultural and food marketing is essential for connecting producers with consumers and ensuring the efficient distribution of agricultural and food products. Bangladesh faces challenges such as price fluctuations, post-harvest losses, inefficient marketing channels, quality and safety concerns, and limited value addition. This course equips students with knowledge and practical skills in market analysis, pricing, distribution, promotion, digital marketing, quality management and sustainable marketing. Farm visits, field observation and report writing further enable students to apply theoretical knowledge to real-world agricultural and food marketing situations.

Course Objectives

1. To develop a clear understanding of the fundamental concepts and principles of the subject.
2. To enhance students' theoretical knowledge through structured learning and practical examples.
3. To develop critical thinking, analytical skills, and problem-solving abilities.
4. To enable students to apply their knowledge in real-life and professional contexts.
5. To improve communication, collaboration, and presentation skills.
6. To encourage creativity, independent learning, and effective decision-making.
7. To prepare students for further academic study and future career opportunities.

Course Learning Outcomes (CLOs)

Upon successful completion of the course a student will be able to:

CLO-1	Explain the fundamental concepts, scope, importance and characteristics of agricultural and food marketing.
CLO-2	Apply marketing functions, grading, standardization, pricing and distribution principles to agricultural and food products.
CLO-3	Analyze agricultural and food markets, market segmentation, consumer behavior and marketing channels.
CLO-4	Develop appropriate marketing strategies using promotion, digital marketing and contemporary marketing tools.
CLO-5	Evaluate food quality, safety, value addition, packaging and sustainable marketing practices.
CLO-6	Identify major problems of agricultural marketing in Bangladesh and formulate feasible solutions.
CLO-7	Prepare basic agricultural marketing plans and business proposals using relevant market information and data.
CLO-8	Demonstrate entrepreneurial, ethical and sustainable approaches to agricultural and food marketing.
CLO-9	Conduct farm visits and field observations, collect relevant information, analyze findings, and prepare and present a structured field report.

Guidelines of Viva-voce

Course Code: 8222364	**Marks:** 50	**Credits:** 2
Course Title: Viva-voce (Marketing)		
Paper Orientation: Practical		**Program:** B.B.A (Honours) 2nd Year

Course Description

The Viva-voce is a comprehensive oral examination designed to evaluate students' overall academic achievement, subject knowledge, communication skills, critical thinking ability, and professional competence acquired during the Second year Bachelor of Business Administration (BBA) in Marketing program. Conducted after the completion of written examinations, this course provides students with an opportunity to demonstrate their understanding of core areas covered during the year, including macroeconomics, principles of accounting, principles of management, principles of finance, business laws and ethics, and agricultural marketing.

The examination also assesses students' ability to explain marketing and business concepts clearly, apply qualitative and quantitative management tools in practical contexts, analyze academic questions critically, and demonstrate ethical values, leadership capabilities, digital fluency, and readiness for professional life.

Course Objectives

The objectives of the course are to:

- Evaluate students' knowledge of major areas of Marketing and allied business disciplines through oral examination.
- Assess students' understanding of macroeconomic indicators, financial accounting processes, management principles, financial decision-making, legal and ethical frameworks, and agricultural marketing systems.
- Develop students' communication skills, confidence, and ability to present business and marketing concepts effectively.
- Evaluate students' analytical thinking and ability to relate marketing theories to contemporary corporate and agricultural supply chain challenges.
- Assess students' professional attitude, ethical responsibility, social accountability, and problem-solving ability.
- Prepare students for higher education, research, professional interviews, entrepreneurial ventures, and career development related to business administration and marketing.

Course Learning Outcomes (CLOs)

CLO	Course Learning Outcomes (CLOs)	Bloom's Level	PLO
CLO1	Demonstrate comprehensive knowledge of fundamental concepts, principles, and frameworks in macroeconomics, accounting, management, finance, and marketing.	Understand (C2) / Apply (C3)	PLO1, PLO5, PLO8
CLO2	Explain and analyze major themes related to national income, financial statement preparation, organizational control, capital budgeting, and agricultural value chains.	Understand / Analyze (C2/C4)	PLO1, PLO2, PLO5
CLO3	Communicate marketing ideas, project proposals, and strategic recommendations clearly and confidently through effective oral presentation.	Apply / Analyze (C3/C4)	PLO8

PROVISIONAL

CLO	Course Learning Outcomes (CLOs)	Bloom's Level	PLO
CLO4	Analyze contemporary business, legal compliance, and market challenges using analytical tools and academic approaches.	Analyze / Evaluate (C4/C5)	PLO2, PLO4, PLO6
CLO5	Demonstrate critical thinking, professional ethics, corporate social responsibility, and sound decision-making skills.	Apply / Evaluate (C3/C5)	PLO5, PLO7, PLO8
CLO6	Show readiness for higher studies, entrepreneurial initiatives, agricultural agribusiness development, and lifelong learning in the dynamic global economy.	Apply / Create (C3/C6)	PLO3, PLO5, PLO8

Teaching System

The course is conducted through an interactive and student-centered approach. Teaching and learning activities include orientation sessions, revision of core second-year marketing and business topics, guided discussions, question-answer sessions, mock viva examinations, individual consultations, self-directed learning, and review of important concepts from current coursework and practical farm or business project assignments.

Students are encouraged to develop effective communication skills, digital literacy, critical thinking ability, leadership aptitude, and confidence for successful performance in the viva-voce examination.

Assessment Strategy

Students will be assessed through a comprehensive viva-voce examination conducted by the designated Examination Committee after completion of written and practical examinations.

The assessment will evaluate students' understanding of second-year BBA coursework, ability to explain and apply marketing knowledge, analytical and critical thinking skills, oral communication ability, professional attitude, ethical judgment, confidence, and responsiveness to questions.

The final grade will be awarded based on the overall performance demonstrated during the viva-voce examination.

PROVISIONAL
