4. J.E. Goldthorpe. Sociology of the Third World
5. হাসানুজ্জামান চৌধুরী : সমাজ ও উন্নয়ন
৬. মুহাম্মদ হাসান ইমাম (সম্পাদিত) : উন্নয়ন ও অনুন্নয়ন প্রসঙ্গ
৭. আমিনুল ইসলাম : উন্নয়নচিন্তার পালাবদল

Paper Code 242005 **Marks: 100** **Credits:** **Class Hours: 60**

Paper Title: Social Demography **Exam Duration: 4 Hours**

1. **Social Demography as a Discipline:**

   a. Definition of social demography, distinction between population studies and demography, development of demography as a scientific discipline

   b. Sociology and demography: relationship between demographic and social variables; sources of demographic data, errors in demographic data

2. **World Population Growth, Population Policy and Population Theory**

   a. Present status of population growth

   b. The demographic transition: relationships between birth and death rates--major transition stages

   c. Causes for divergent birth rates: nutrition, sanitation and medicine — values and attitudes-institutional factors

   d. National population policies and demographic transition

   e. Population theories: classical and contemporary

3. **Age Composition**

   a. The age-sex pyramid

   b. Factors affecting age patterns: fertility — mortality — war migration; variations in age patterns: developed and developing countries

4. **Sex Composition**

   a. Sex ratio

   b. Factors affecting the sex ratio: fertility — mortality—migration.

c. Variations in sex ratio: international comparison—rural-urban differences—race/ethnic differences.

d. Changes in sex composition: trends in the United States and Bangladesh

5. Marital Characteristics

a. Marital status, factors affecting marital status

b. Trends in marital status: international comparison — trends in Bangladesh, changing marriage rates

c. Changing divorce rates: one parent families — remarriage

d. Differentials in marital status: age — sex — race/ethnicity — farm-nonfarm

e. Patterns of mate selection: exogamy — endogamy

6. Fertility

a. Fertility concepts and measures

b. Trends in world fertility: long fall in the developed countries —changing fertility in the developing countries — Bangladesh —explanation for high and low fertility rates

c. Fertility differentials: age — rural-urban — race/ethnicity socioeconomic status

d. Fertility control: Davis-Blake model — Contraceptive prevalence in south Asia

7. Mortality

a. Mortality concepts and measures

b. Trends in world mortality: differential international pattern explanation for high and low mortality rates

c. Mortality differentials: sex — age — rural-urban — race/ethnicity —socioeconomic status

d. Mortality control: international comparison —reasons for declining mortality

e. Causes of death: cause of health differences by sex — by age — by race/ethnicity

8. Migration

a. Migration concepts and measures

b. Typology of migration: voluntary — non-peaceful — impelled theories of migration

c. Migration in Bangladesh: internal — external — causes and consequences of migration

9. Population Problem, Policy and Planning:

a. Population problems and factors behind it-- trends and features, contemporary debate on population problem

b. The concepts of population control, policies and planning issues of population control

c. Family planning as an approach to population control

d. Nature of population policies in developed and developing countries
