Detailed Syllabus

Paper Code	243501	Marks: 100	Credits: 4	Class Hours: 60 hrs.
Paper Title:	Food Science and Technology			

1. **Food Spoilage:**
   a) Paper of food spoilage.
   b) Deterioration of food quality.
   c) Apoilage of various foods and food products.

2. **Food Preservation:**
   a) Principles of food preservation.
   b) Food preservation by using various methods high temperatures, CV aporation and drying, low temperatures, etc.s

3. **Food Flavours:**
   a) Sensation of taste and flavour.
   b) Chemicla, nature of taste and flavour.
   c) Effect of processing on taste and flavour.
   d) Artificial taste and flavour and its applicaton.

4. **Food Colours and Pigments:**
   a) Types of pigments and their nature.
   b) Effect of cooking and processing on the pigments.
   c) Artificial food colours.

5. **Food Additives:**
   a) Definition.
   b) Characteristics of chemical additives.
   c) Use of additives in food technology.

6. **Milk and Milk Products:**
   a) Processing of common milk products.
      - butter, cheese, yoghurt, etc.

7. **Vegetables and Fruits:**
   a) Harvesting and storage.
   b) Jams, jelly and marmalades –rote of pective in fruit preservation.
   c) Fruit beverages.

8. **Cereals and Cereal Products:**
   a) Rice and rice Products.
   b) Baking- Role of gutter in baking industry.

9. **Meat and Meat Products:**
   a) Post mortem changes in meat.
   b) Tenderising m eat
   c) Meat Products and meat procesings.

10. **Fats and Oils:**
    a) Production of fats and oils and processing refining and hydrogenation.
    b) Commercial fat Products- margarine emulsion, mayonnaise etc.
    c) Adulteration of fats and oils.

Recommended Books:

1. Food Chemistry – By Meyer
2. Food Processing and Preservation – B. Shiva Sanker.
3. Mechanism and Theory – Dominic W. S. Mong.

Paper Code	243503	Marks: 100	Credits: 4	Class Hours: 60 hrs.
Paper Title:	Counseling in Family			

1. **Introduction:**
    a. The concept of counseling
    b. Scope of counseling
    c. Need for counseling in family life.
2. **Various Approaches to counseling:**

8. ভোক্তা আচরন- মোঃ আব্দুল মান্নান।

Paper Code	243507	**Marks: 100**	**Credits: 4**	**Class Hours: 60 hrs.**
Paper Title:	**Textile Manufacturing and Merchandising**			

A. Texitile Manufacturing:

1. **Introduction to Textiles:**
    a) Fibre theory.
    b) Fibre classification.
    c) Textile fibers: manufacture, Properties and their Improtance to the Consumer-
        i) Natural: Cotton, Flax, Silk, Wool and Jute.
        ii) Man-made: Rayon, acetate, Nylon, Polyester and Acrilc.

2. **Yarn construction and the effect fo yarn on the fintshed fabrics.**
    a) Kinds of spinning.
        i) Mechanical spinning.
        ii) Chemical spinning.
    b) Classification of yearns.
        i) Simple.
        ii) Novelty.
        iii) Bulk.

3. **Fibre Indentification:**

a) Technical Method:

i) Chemical test

ii) Microscopic test

b) Other Methods:

Feeling, Burning, Breaking, water absorbency, Hot iron test, Sequeezing test.

B. Merchandising:

4. Merchandising:

a) Retailing.

b) Advertising.

c) General principles of merchandising, retailing and advertising.

5. Consumer technique:

a) Evaluation of ready made garments and house made garments in relation to fabric, colour, design, quality, comfort, suitability and cost.

b) Study of lebels and their use.

c) Consumer problem in family clothing

i) Family size and income.

ii) Individual difference.

iii) Price and quality.

iv) Unplanned shopping.

v) Size.

6. Pricing Decisions:

a) Definition of Prices.

b) Internal factors affecting pricing decision.

c) External factors affecting pricing decision.

7. Quality Control:

a) Introduction.

b) Inspection.

c) Product quality audit.

8. Quality standards of textile products:

a) Definition of Textile products.

b) Benefits of standards to manufacturer, retailer and consumer.

c) Qulity control agencies and regulations in Bangladesh.

d) Bangladesh Standard Institute and its role.

e) Testing laboratory and Bureous.

Recommended Books:

1. Essential of textiles - Majary L.Joseph

2. Fiber of Fabric - Patter and Coroman

3. Introduction to textiles - Stouit

4. Textile - Yates

5. Modern Textiles - Siegart

6. Textile fiber and their use - Hess

7. Clothing Production Management - A.J.Chuter

8. Consumer Problem - Troctstrup A.W

9. Hand book of Testile and quality control - E.D. Groups

Paper Code	243509	Marks: 100	Credits: 4	Class Hours: 60 hrs.
Paper Title:	Community Nutrition and Public Health			

1. **Eticelogy of malnutrition:**
    a) Food Production and population, unemployment.
    b) Unequal distribution of food, household food security.
    c) Lack of knowledge and socio-economic factors.
    d) Sauitation and health.

2. **Disorders of malnutrition:**
    a) Protein energy malnutrition.
    b) Micronutrient deficiencies and other nutritional disorders
    c) Chronic discauses with mutritinal implications, prdnence,ecology and prevention of the disorders of malnutrition.

3. **Assesment of nutritional status of a community:**
    a) Authropometric assissment.
    b) Laboratory and biochemical assessment.
    c) Dictory assessment and dictory surveys.
    d) Bital health statistics and other indicators of nutritional assessment.

4. **Effect of malnutrition on the population:**
    a) Malnutrition and infection.
    b) Malnutrition and mantal development.
    c) Maternal malnutrition
    d) School age children and adolescents.

5. **Nutritional Polices and Programmers:**
    a) Applied Nutrition Programmers.
